Greeting:

In presenting this Souvenir to our patrons and friends, it is with a sincere feeling of regard to all who have been users of our two celebrated remedies. In Barker's Horse, Cattle and Poultry Powder and Barker's Nerve and Bone Liniment we believe that we have unrivalled remedies for the purposes intended. Regarding the Souvenir, we thought it might be interesting to many to see the Comic Pictures that have appeared in our Almanac in past years; many parties may never have seen those of the earlier issues, or may like to see them again; hence, we have collected them together in one book, and present them to our patrons and friends.

HOW TO GET ONE.

We will mail free a copy of the above to any one who sends us a top label from a package of Barker's Horse, Cattle and Poultry Powder and their family, also from what druggist or storekeeper with his P. O. address, the goods were bought; only upon fulfilment of these conditions will the Souvenir be sent. Address:

**The Barker, Moore & Mein Medicine Co., No. 609 MARKET STREET,
PHILADELPHIA, PA.**

Grand Fourth of July Race By The Bullymanoun Club.

CONTINUED ON PAGES 3 AND 4.

Grand Fourth of July Race by The Bullymanoun Club in commemoration of the Thirtieth Anniversary of Barker's Horse, Cattle and Poultry Powder, for the Grand Prize of a solid gold cup, silver plated for the one that wins the race. Length of race seven miles, they are now three minutes and fourteen seconds from the starting point. Continued on pages 3 and 4.

Grand Fourth of July Race by the Bullymanoun Club, in commemoration of the Thirtieth Anniversary of Barker's Horse, Cattle and Poultry Powder for the Grand Prize of a solid gold cup, silver plated. Grand final, all coming in ahead and much demoralized. The judge of the race decides to keep the cup, and escapes with it. Great excitement. Continued from pages 2 and 3.

Jackass with Gill went up the hill to get a Pail of Water. Jackass slipped down, squat on the ground, and Gill with Bucket came tumbling after. At last accounts, poor Gill was recovering from his bruises and sprains by the use of Barker's Nerve and Bone Liniment, the great Liniment for man and beast. A big bottle for 25 cents. See fac-simile on page 17.

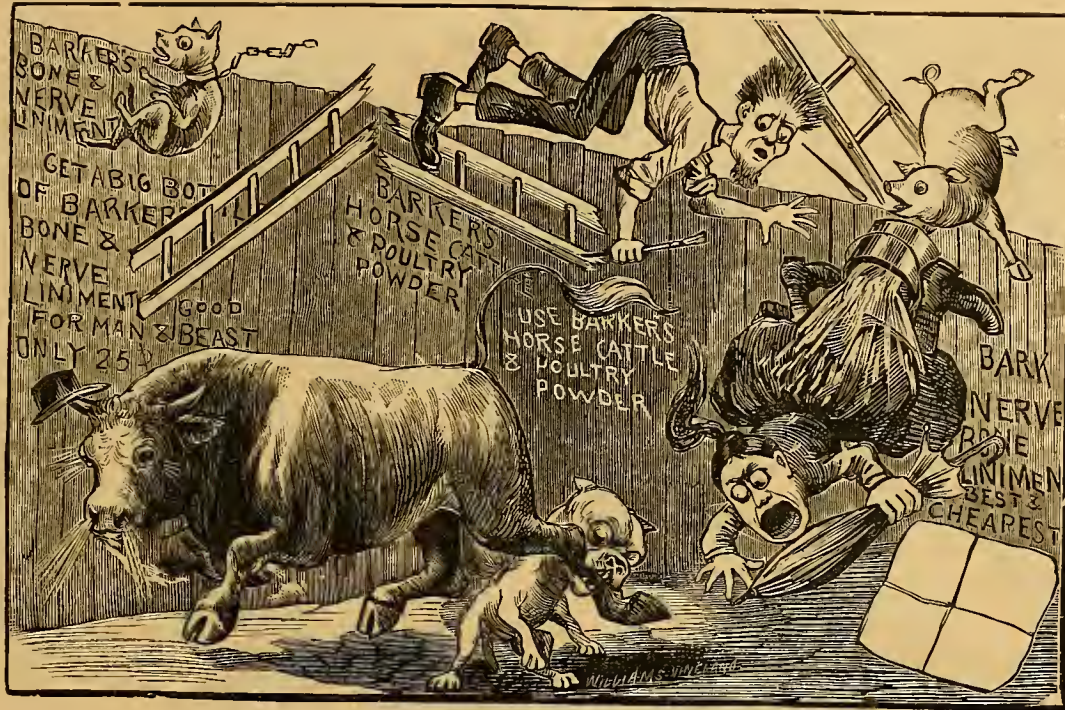

When little Willie first heard the braying of a mule he was greatly frightened, but after thinking a minnte he smiled at his fear, saying: "Mamma, just hear that poor horse with the whooping cough!" The braying of a mule is very annoying, but not as bad as a kick. In case of the last, use Barker's Nerve and Bone Liniment, the great Liniment for man and beast. A large bottle for 25 cents.

THE TEMPERANCE CONGRESSMAN.

Delegates from Washington, representing all the States, that left by special train for Chicago, to witness the laying the corner-stone of the Good Templars' Hall, were delayed in an out-of-the-way place nine hours by a wreck. When under full headway again, the locomotive blew the whistle for down brakes, and as the train gradually stopped to take water, a funny fellow opened the car door and cried out: "Kammerer's Distillery; five minutes for a refreshment." The adjoining car shows the result.

"Home is where men are moulded," says a philosopher, and he might have added, sometimes with the same rolling-pin with which pie crust is shaped. In case of the latter, Barker's Nerve and Bone Liniment is needed. A large bottle for 25 cents.

A NAUGHTY BULL DOG CAUSES A PANIC.

A naughty bull dog attacks a wicked Durham bull, which puts the wicked bull to flight, who tosses a good old lady and her pet dog almost out of sight, and then the wicked bull attacks the painter's ladder and breaks it in two, which brings him down, and his paint pot full of paint flies all over the old woman. All had a bully time, but no one laughed till they had got a bottle of Barker's Nerve and Bone Liniment, the great liniment for bruises, sprains, &c., for man and beast. A big bottle for 25 cents.

It takes seven years for an alligator to get to that point where his hide is worth \$3.00. It is more profitable to be a calf. A calf will thrive much better by giving the cow Barker's Horse, Cattle and Poultry Powder; it makes the milk richer and more wholesome.

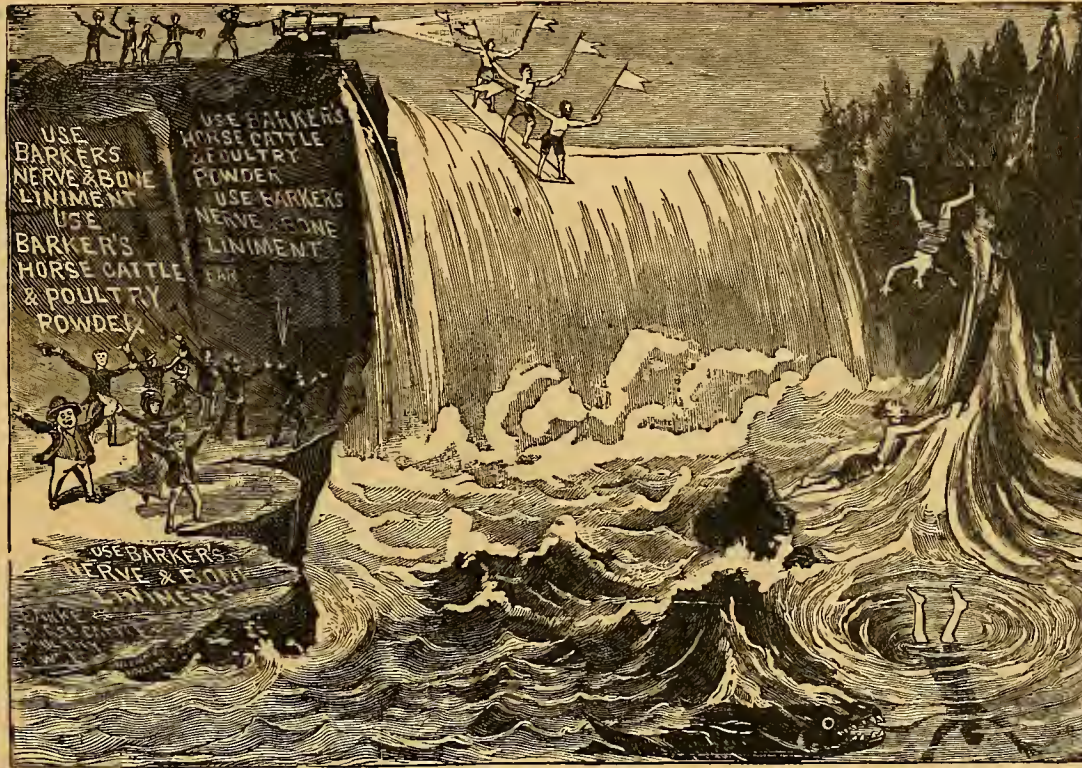

THE GREAT NATIONAL POULTRY STRIKE FOR BARKER'S HORSE, CATTLE AND POULTRY POWDER.

Comprising the following Unions: The Hens of Labor, the Roosters' Glutton Club, the Goose and Gander Swimming Union, the Duck Quack, Quack Floaters, the Turkey Corn Gobble Knights. At a mass meeting the following resolution was offered and unanimously adopted:

Resolved, That we, as the important feather tribe of the world, demand that Barker's Horse, Cattle and Poultry Powder be given us regularly, three or four times a week, mixed with our feed, as it keeps us from all kinds of diseases, makes us plump, fat and healthy, and we can guarantee at least 25 per cent. more eggs.

Mrs. Yerger (to colored servant)—"Do you know when Colonel Yerger came home last night?" Sam—"I dunno, mum, but when I tuck his boots at seven o'clock to black, dey was warm." In warm and hot weather some kind of stock are more or less liable to disease, give Barker's Horse, Cattle and

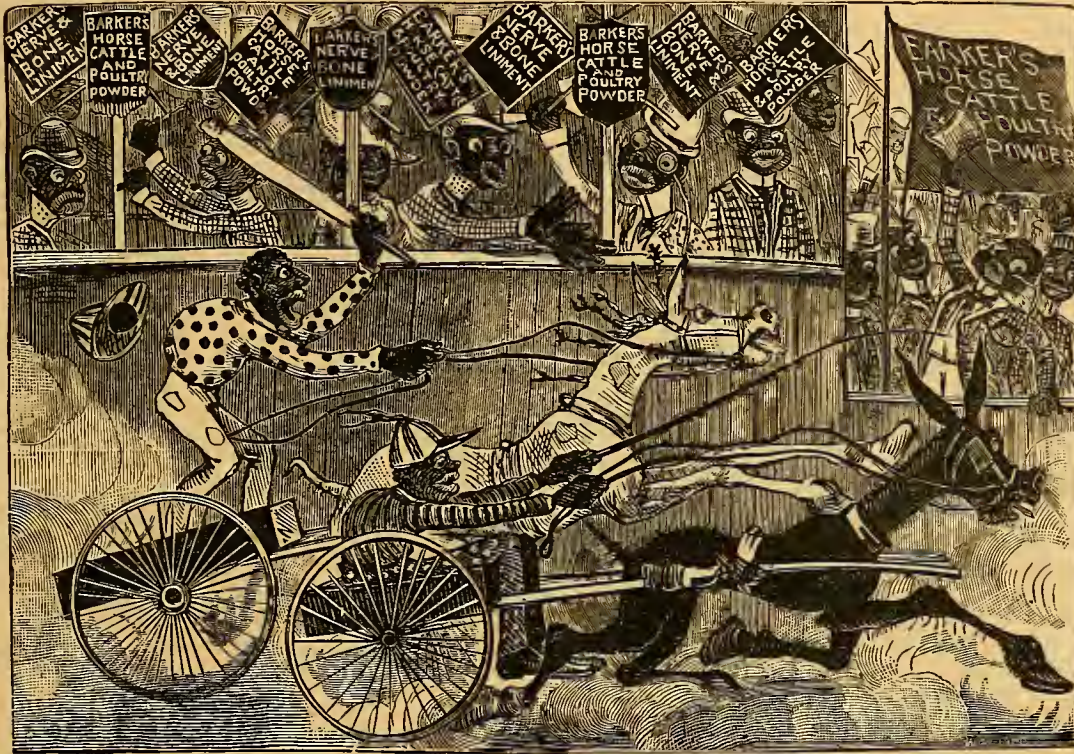

Poultry Powder the whole year around with the feed and your stock will always be healthy, as it wards off diseases.

The Reckless Advertising Agents' Attempt to go Through the Niagara Rapids on a Wager of \$500.

The first party of three went over the Falls all right; but their board was caught in the whirlpool and one of the party drawn in but came out all right; the other was thrown from the rapids in the air nearly 500 feet and considerably bruised; the other three that went over on a heavy plank, were dashed through the rapids at a frightful rate and were picked up about a mile apart all safe but severely cut and bruised. All are rapidly recovering by the use of Barker's Nerve and Bone Liniment the great liniment for man and beast, a big bottle for 25 cents.

What is the difference between a farmer and a seamstress? One gathers what he sows and the other sews what she gathers. But both should be provided with a bottle of Barker's Nerve and Bone Liniment, the great liniment for man and beast. A large bottle for 25 cents.

THE RACE FOR A BRIDE.

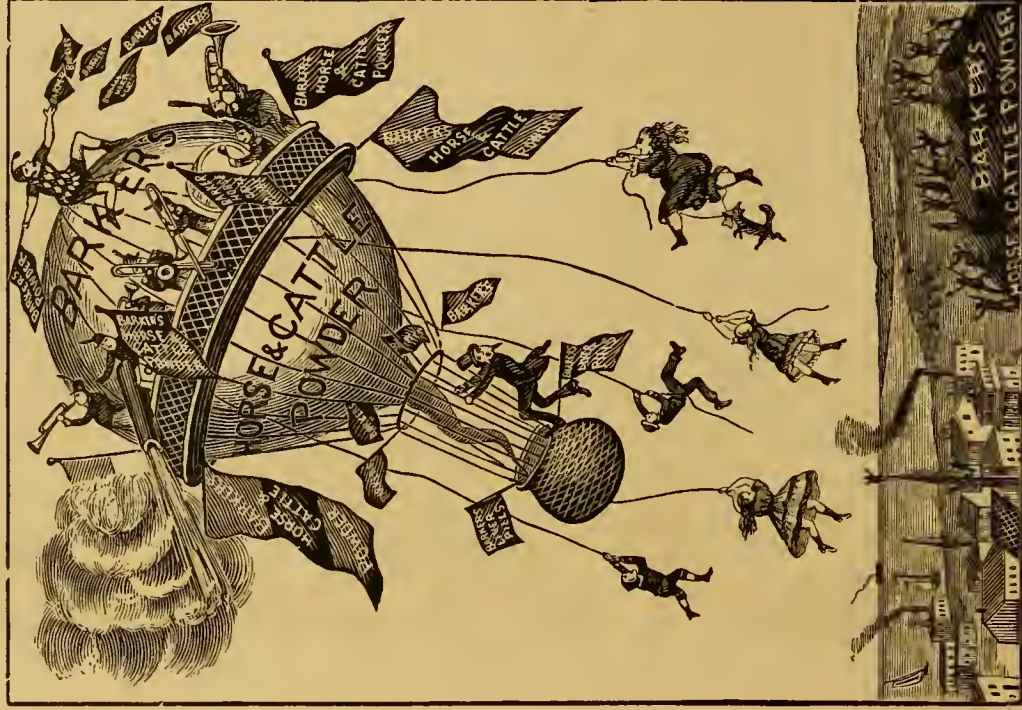

Joe Black and Cholly White, two charcoal peddlers, were rivals for the hand of Miss Rose Coal, the charming belle of SLAB TOWN. As Rose had a sort of a sneaking notion that she loved both, and as both had asked for her claw, she didnt know which to marry; but said if she had her choice she wouldnt marry either, as they were both the laziest niggers in the country. But to settle affairs, told them they must run a race with their own charcoal teams, and the one that would heat she would marry, providing she couldnt git no other coon. So they agreed, and after giving each horse a good feed, with Barker's Horse, Cattle and Poultry Powder mixed in, they started on a mile race, and both came in together, and while they were disputing over the matter, Rose ran off and married a goose thief.

As with a woman, so with a horse—back hair is the mane trouble. If there is any trouble, such as sprains, stiff joints, or any trouble in the joints or muscles, use Barker's Nerve and Bone Liniment.

A THRILLING BALLOON VOYAGE.

WITH FIVE ILLUSTRATIONS.

Our advertising agent enters into a contract with the great French balloonist, professor Loraine, to advertise Barker's Horse, Cattle and Poultry Powder all over the world with a balloon to pass over all the cities and towns, the balloon to be decorated with flags, with the name of Barker's Horse, Cattle and Poultry Powder thereon. The balloon to be lowered at cities and towns so that the advertisements could be distinctly read. The inhabitants of each place were to be apprised of it by the firing of a large cannon, which accompanied the balloon, weighing three tons, in charge of Major Rand. A band which also accompanied the balloon, consisted of thirty-two performers

would, after the firing of the cannon, discourse sweet music. A large steam printing press in the middle of the balloon to be constantly printing circulars, which were distributed by Dr. Long from the top of the balloon over the whole country. The balloon was divided into five rooms, as follows: Dining Room, Kitchen, Sleeping Room, Band and Cannon Room, Printing and Engine Room. The balloon was the largest ever made; size in circumference, 5,581 feet, height, 7,000 feet, and cost \$250,000. It started up on the 27th day of September, 1880. It took four months to inflate it with gas. The professor's family were all on hand the day it was to ascend, holding on to the ropes until the professor could get all ready, when by a sudden puff of wind it flew up into the clouds before the family could release themselves from the ropes, and were all carried up. Continued on pages 13, 14, 15 and 16.

A THRILLING BALLOON VOYAGE, CONTINUED FROM PAGE 12.

The balloon as seen by the bathers at Cape May Beach crossing the Atlantic Ocean. The professor sends out two carrier pigeons; great excitement among the people on the beach, boats sent out to rescue those hanging on the ropes, in case they should fall all the Life Saving Stations received telegraph orders to look out for them. Continued on page 14, 15 and 16.

A THRILLING BALLOON VOYAGE, CONTINUED FROM PAGE 13.

Balloon out of sight of land, supposed to be near the middle of the Atlantic Ocean. Professor Leon Loraine discovers a terrible storm approaching; the sky blackens; lightning flashes sharp, amid loud roars of thunder. All hands are ordered to the ropes to draw the suspended family from their hazardous position into the balloon. They hauled on the ropes, and just when their labors were about to be crowned with joy, a flock of savage Angola eagles attack them, the most savage of the bird tribe. They tore five human beings from the ropes and carried them downward toward the ocean, amidst their heart-rending cries, and loud screams of victory from the savage Angola eagles. Major Rand fires a load of grape shot from his cannon into part of the flock, killing as near as could be estimated about seventy-five thousand of the savage birds. Continued from pages 12 to 16.

A THRILLING BALLOON VOYAGE CONTINUED FROM PAGE 14.

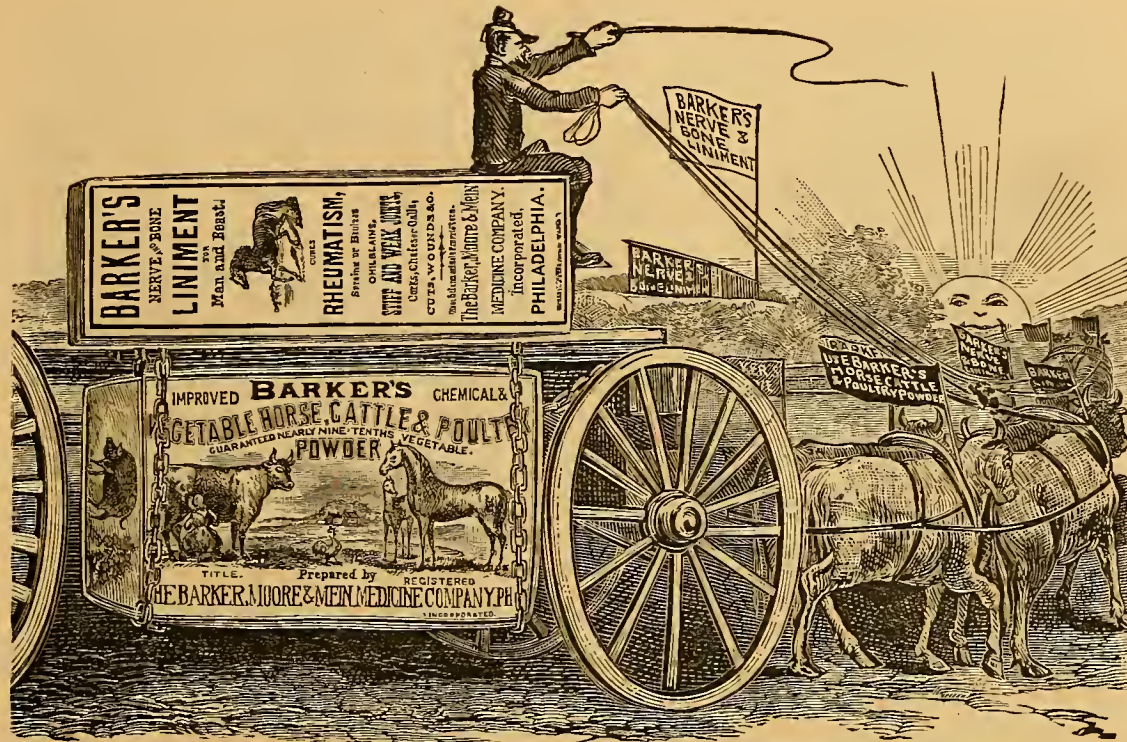

In a few minutes after the savage Angola eagles had torn the family from the ropes of the balloon, a heavy gale sprung up from the North-west, which soon carried the professor and his balloon out of sight of his dearly beloved family, and they were at the mercy of ferocious eagles, which carried them off near Lake Comomo, near the coast of Africa, where the eagles discovered a lot of wild beasts, which caused them to again ascend. They proceeded with their victims to the top of Mount Nero, the highest mountain in the world, five hundred and seventy-eight thousand feet high. Continued on page 16.

A THRILLING BALLOON VOYAGE, CONTINUED FROM PAGE 12.

At this point, about 2,500 miles over Mount Nero, the eagles became exhausted and dropped their victims, who alighted on a herd of buffaloes, supposed to be 15,000 in number, being all close together. The buffaloes became so frightened from the screams of the eagles and the shrieks of the family, that as soon as they lit on their backs, the whole herd became panic stricken and dashed along at lightning speed until they came to the top of Mt. Nero, where they dashed over a precipice of over 578,000 feet, killing over 10,000. The family from the top of Mt. Nero had not received the slightest injury up to the time of falling on the buffaloes, except the old lady, who had a corn picked off her little toe by an eagle while flying, which was quickly healed by Barker's Salve. The family

soon discovered (after looking around) that they were within three miles of Fort Longino, which was solely inhabited by traders in furs and skins; they sold them the dead buffaloes, which netted the family nine hundred and seventy-eight thousand dollars. They at once began to make a balloon and go in search of the professor. In thirty-six days it was completed, and they made their start on the fifth Tuesday of September. After four days voyage they discovered the professor sixty-seven thousand miles north of Brazil, sawing off the end of a rainbow. After an affecting and joyous meeting, they got into the professor's balloon, the end of the rainbow was sawed off and they took out a pot of gold and descended to the earth. The gold amounted to twenty-five million dollars. The professor and his family are now traveling and delivering free lectures on the uses and benefits of Barker's Horse, Cattle and Poultry Powder and Barker's Nerve and Bone Liniment. Continued from page 12.

CAUTION! CAUTION!! THE COUNTRY IS FLOODED WITH STUFF CALLED HORSE, CATTLE AND POULTRY POWDER.

DON'T BE DECEIVED. The country is full of fraudulent stuff called Horse and Cattle, Stock, Poultry and Condition Powder, and various other names; also of Liniment called Nerve and Bone. The above shows a fac-simile of the genuine. Ask for Barker's and take no other. They have stood the test for over a quarter of a century, which is a sufficient guarantee for reliability.

POLICEMAN (to tramp)—"You were begging from house to house, yet I find 35 cents in small change in your pocket." **Tramp**—"Well you didn't expect to get 35 cents in \$20 gold pieces, did yer?" For 25 cents in silver you can get a big bottle of Barker's Nerve and Bone Liniment, it cures rheumatism, sprains, bruises, cuts, &c., for man and beast.

THE PUNISHMENT THAT AWAITS FRAUDULENT
IMITATORS OF BARKER'S HORSE
CATTLE & POULTRY POWDER
SEE PAGE 17

CAUTION—Beware of Counterfeits and Imitations. Owing to the popularity and superiority of Barker's Horse, Cattle and Poultry Powder over all others in the country, unscrupulous persons have been induced to offer a spurious article, representing it to contain the same ingredients as Barker's, they have also imitated the style of label and package. Therefore beware of Counterfeits and Imitations.

Barker's Horse, Cattle and Poultry Powder is made by practical and reliable druggists, and contains thirteen ingredients in its compound, all having their medicinal properties suited to the different diseases that animal flesh is heir to. Their record all over the country for nearly thirty years is a sufficient guarantee for their reliability. See fac-simile of the genuine on page 17.

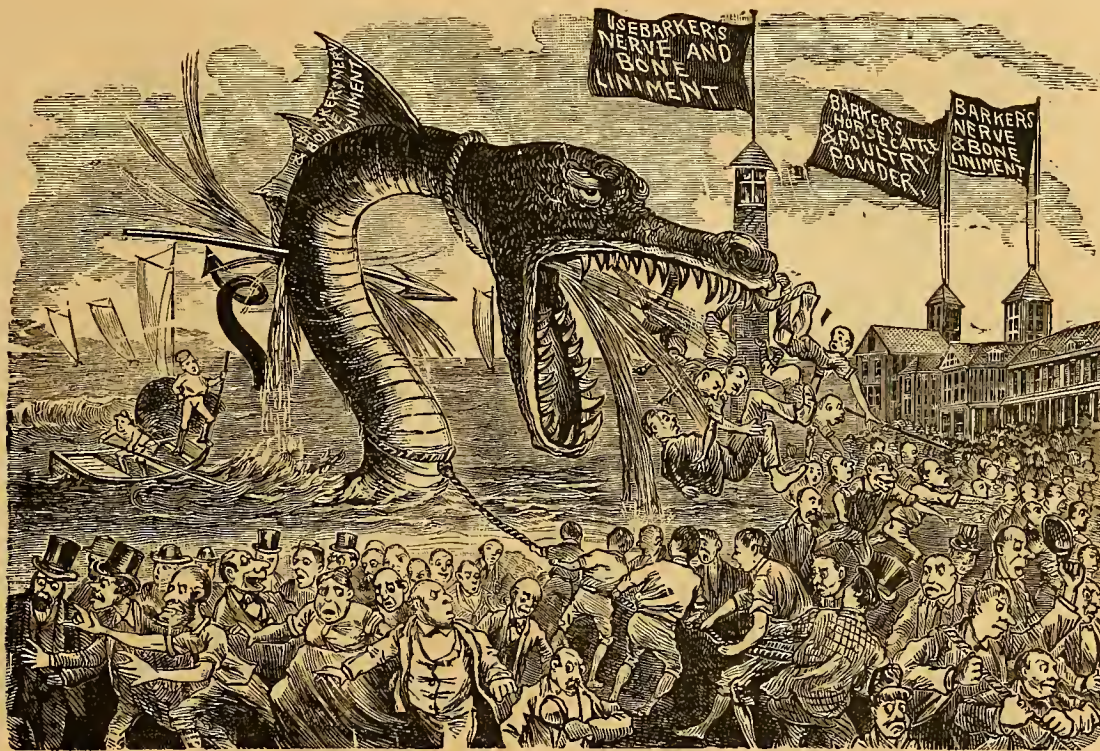

AN INTERESTING BABY SHOW AT A HARVEST HOME PICNIC.

Fifty babies, their ages to be between four and six months, were given a good feed and then placed within easy reach of each other. A Prize of a very elegant Gold Watch and Chain was to be given to the mother of the babe that would remain quiet five minutes. Each mamma was now so confident of being the possessor of a gold watch that they could almost hear it tick in the new pocket made in advance. Another minute gone; the eyes of each mother beamed with delight; but alas, in the twinkle of an eye a miserable Jackass began to bray, which caused the babes to set up a scream not equalled by a den of hungry hyenas. A committee of ten mothers visited the Jackass with clubs, and his owner is basing the only hope of his recovery by using Barker's Nerve and Bone Liniment, the great liniment for cuts, bruises, sprains, &c., a big bottle for 25 cents.

THE MONSTER OF DEEP OLD OCEAN COMES ASHORE FOR A SQUARE MEAL, SWALLOWING 65 BATHERS.

The wonderful sea serpent left roid-ocean from hunger, and came in front of Moore's Beach, the great summer resort, where hundreds were bathing, and in a few seconds swallowed 65 people and then struck out for mid-ocean, pursued by 10 whalers. Who after a chase of two days and nights captured the monster, which was brought back to Moore's Beach, where it ejected from its stomach the 65 human beings it had swallowed, all were alive and well, except about two dozen, who, owing to the damp place they were confined in were suffering with rheumatism, but were soon all right from the use of Barker's Nerve and Bone Liniment, the great remedy for man and beast, a big bottle for 25 cents. Continued on page 21.

THE MONSTER OF THE DEEP AT LAST CAPTURED AFTER SWALLOWING 65 HUMAN BEINGS.

The only sea-serpent ever known to be captured, occurred some ten miles out in the ocean from Moore's Beach. After a perilous chase of two days and nights, receiving 74 harpoon wounds. The most remarkable thing was the monster casting from his stomach the 65 human beings, all alive and well except about 24, who owing to their damp quarters, were suffering with rheumatism, but are now all right from the use of Barker's Nerve and Bone Liniment, the great remedy for man and beast. Cures rheumatism, sprains, cuts, burns, stiff joints, lameness, wind galls, weak joints, scratches, swelled legs, &c. A big bottle for 25 cents. Continued from page 20.

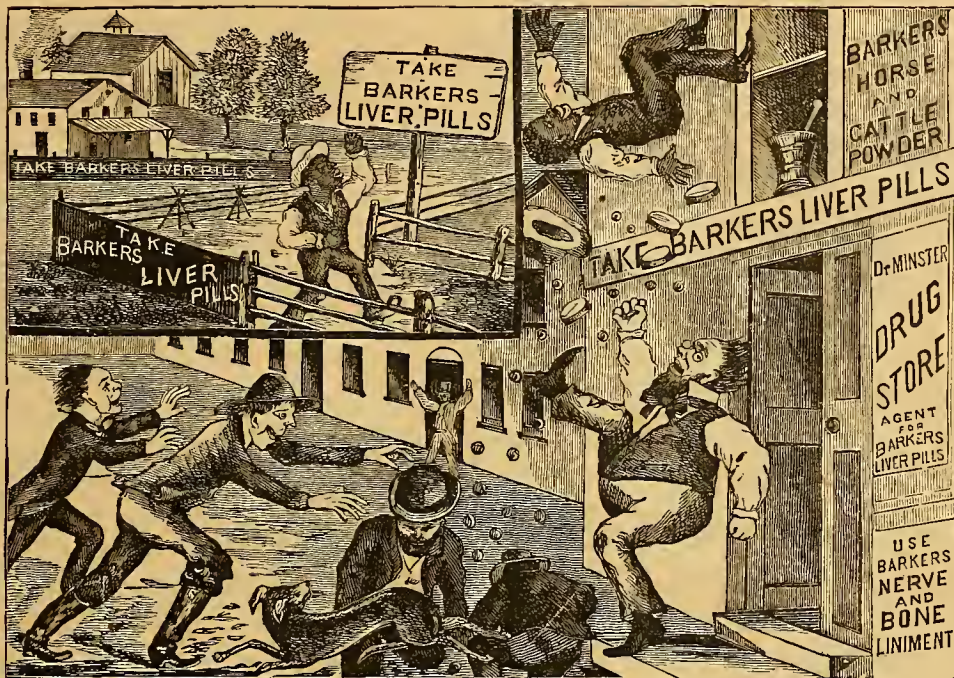

"Take her up tenderly, fashioned so slenderly, young and so fair; handle her carefully, talk to her prayerfully—she's cross as a bear," because she forgot, when at the store, to get a bottle of Barker's Brazilian Shoe Dressing to shine up her shoes for the party.

THE GREAT GO-AS-YOU-PLEASE RACE AT NERVE AND BONE PARK

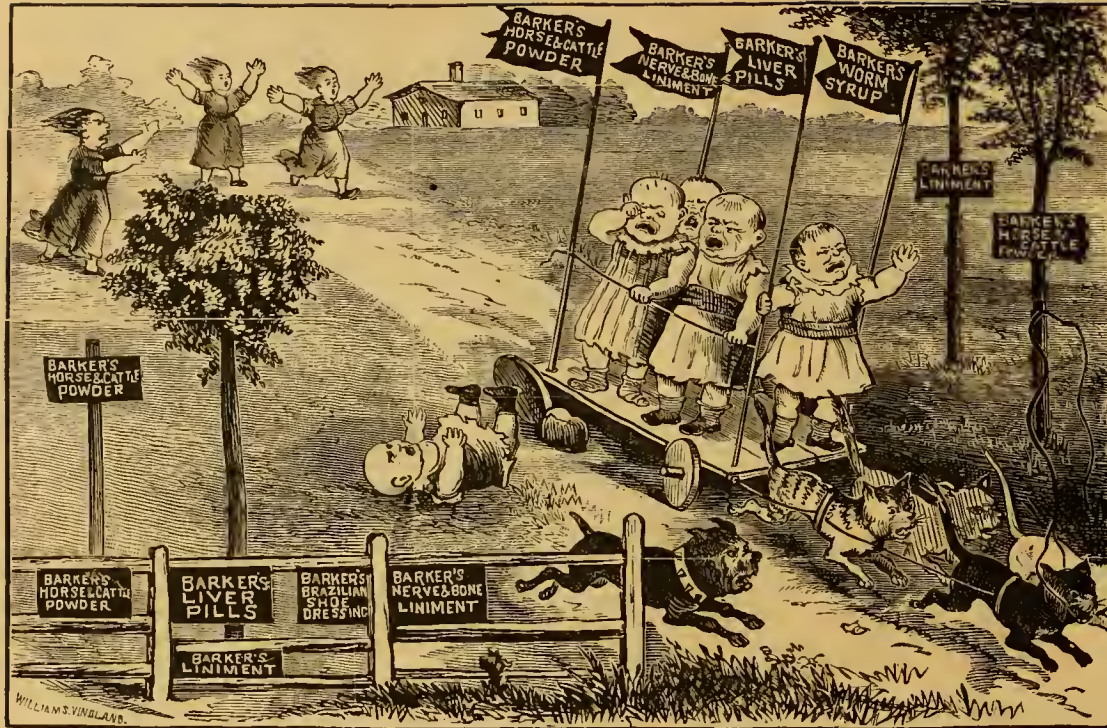

Between the English and American Jockey Clubs for Ten Gross of Barker's Horse, Cattle and Poultry Powder and Ten Gross of Barker's Nerve and Bone Liniment, the two standard preparations of the day, they have become so popular that unscrupulous persons are trying to deceive the people by imitations and counterfeits. Ask for Barker's and take other. See fac-simile of the genuine on page 17.

The horseshoe is only an emblem of good luck when on the winning horse.—Barker's Horse, Cattle and Poultry Powder will make him the winning horse.

MOSE'S FIRST START IN BUSINESS—He suddenly goes up, but explains the unavoidable cause.

LAZY MOSE, as he was commonly called, lived on Caleb Culp's farm, in the State of Indiana, about fifteen miles from town. Mose becoming tired of farming, concluded to walk to town, and look up something different. The road all the way to town had advertisements on boards, fences, trees, barns, etc., reading as follows: take **BARKER'S LIVER PILLS**. After reading it so often, being almost constantly before eyes for fifteen miles, and having heard so much about the good effects of Barker's Liver Pills, it made a strong impression on Mose. So, on entering the town, his eye immediately caught the large sign, 200 feet long on Dr. Minster's Drug Store, in large glass letters, reading as follows: Take Barker's Liver Pills, and take no other. So, knowing the advice to be good, Mose concluded to go into the pill business, as he knew the pills were ready sale. He quietly opened the door of the drug store, and seeing the doctor busily selling Barker's Horse, Cattle and Poultry Powder and Nerve and Bone Liniment, grabbed a gross of Barker's Liver Pills from the shelf, and started on a run, but the doctor got to the door just in time to assist in giving him a good start up in the pill business. A few days after, one of Mose's friends met him with a "hello, Mose! I heard you went up in the pill business." "Yes," said Mose, "I did git a good start in dat business, but one of de principle creditors pressed me so close, dat I was forced to go up wid a good stock of de pills on hand, but I lost all, and no one suffers more by de crash dan dis nigger, my downfall was heavy, and it hurts dis child's feelings berry much. But I spect to soon be on my feet again, as I am using Barker's Nerve and Bone Liniment. I, golly, dis nigger got too much intelligence to be kept down. Say, Pete, if you should ever rise in the world like me, and hab a downfall, be kerdal to follow my exsample. And in the words of the immortal poet, Shakspeer. Say, Pete, lend me 25 cents to git a large bottle of Barker's Nerve and Bone Liniment. The impression made on me by a preferred creditor is causing great pain."

A TERRIBLE CAT-ASTROPHE.—THE INFANT ADVERTISERS BROUGHT TO GRIEF.

Five darling little dumpling babies, while playing advertising wagon, were startled by a nasty, big, ugly bull-dog, attacking their cat team, which caused them to run away and spill all the little darlings out before the team reached the bottom of the hill. Their bruises are being rapidly cured by the use of Barker's Nerve and Bone Liniment, the great liniment for man and beast. A big bottle for 25 cents. The bull-dog while chawing up a Thomas cat, was brought to an untimely end, from violence produced by three angry mammas, who said in one voice, dog-gon the dog, and the dog had gon dead. See fac-simile of the genuine Liniment, also of Barker's Horse, Cattle and Poultry Powder on page 17.

Rheumatism is a joint affair, and yet there is only one party to it; but that one party can dissolve that joint affair by using Barker's Nerve and Bone Liniment. And you get a rousing bottle for 25 cents. The great liniment for man and beast.

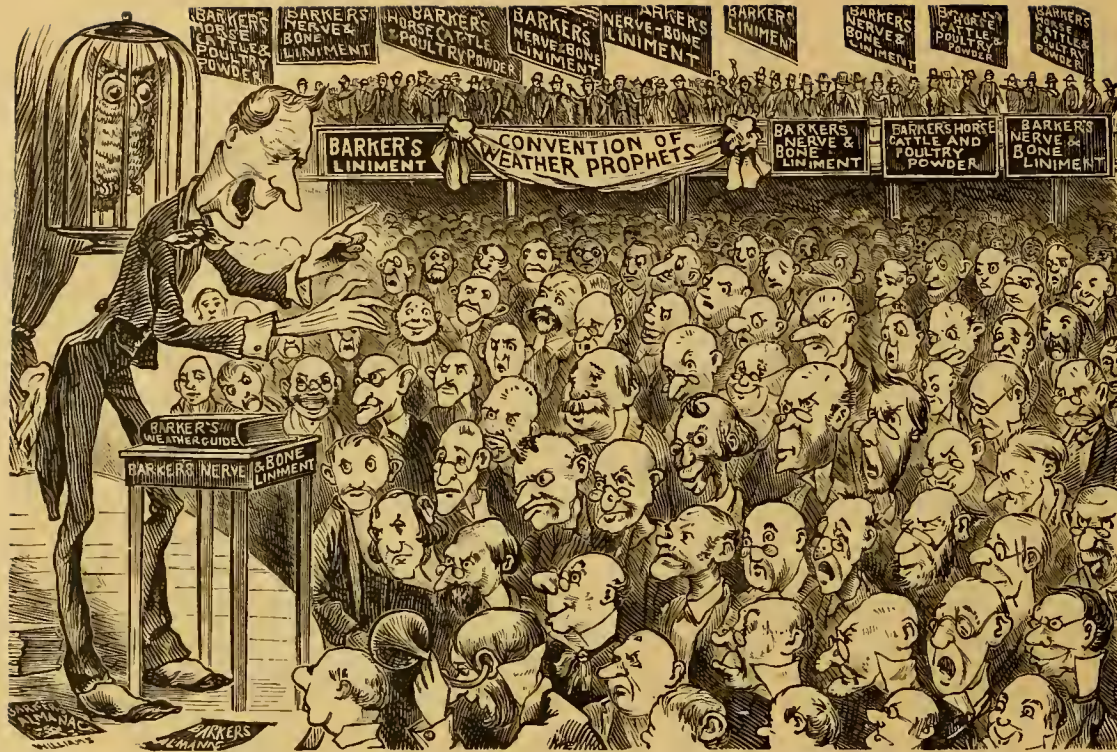

THE GREAT STRIKE.

A number of anxious mothers observed by the school-teacher's report that their boys were always absent from school on Thursday afternoons. So the good mothers formed themselves into a Vigilance Committee, and soon discovered that the naughty boys, instead of being at school, were hanging over the top of a high fence, looking at a base-ball match. So the mothers all concluded to meet at an appointed place, each to be provided with an article for punishment, and proceed secretly to the base-ball ground. Each mamma picked out her boy, and a strike was general and effective, and now the naughty boys are at school every Thursday afternoon, and the strike is considered off.

P. S.—The boys soon recovered by the use of Barker's Nerve and Bone Liniment, the great healer of cuts, bruises, etc. A big bottle for 25 cents. For fac-simile of the Genuine Liniment, also Barker's Horse, Cattle and Poultry Powder, see page 17.

Lynch's sure cure for horse thieves—A dose, one drop. Barker's Nerve and Bone Liniment is a sure cure for sprains, lameness, etc. For man and beast, a big bottle for 25 cents.

The Great Weather Prophets' Convention, Representatives from all parts of the World meet in Philadelphia,

Their opinions were changeable, varying from warm to pleasant, then to cold, threatening at times with heavy storms which ended with heavy squalls, but soon blew over; and they all retired to the supper room and fed sumptuously from a bill of fare, consisting of Frozen Ground Hog, with Thunder and Lightning Dressing; Wild Goose broiled in the sun, with Blood Heat Dressing; Snow Bird stewed in Spring Lamb Tears; Snow Pudding, with Zero Sauce; Pickled Hail Stones in July Sauce; Spring Flood Punch, flavored with Mountain Dew. Music by the Jack Frost Band. The convention will meet again on 13th month, 5th week of July, 1991, sharp.

WHEN a pickpocket pulls at your watch, tell him plainly, in a striking way, you have no time to spare. When you want to make double-quick time with your horse, give him Barker's Horse, Cattle and Poultry Powder mixed with his feed, it has been tried and is guaranteed.

The Wonderful Discovery of the Long-Lost Rip Van Winkle's Horse by a Lot of Boys.

Almost every one is familiar with the story of Rip Van Winkle and his dog Schnider. Rip was a drunken, worthless fellow, and his wife kicked him out. So he, with his gun, horse, and his dog Schnider, struck for the woods to kill game, being well supplied with corn juice. A heavy blizzard caused him to lie down, and, as history says, he slept for twenty years. When he awoke the little twig he had tied his dog to had grown to be a tree 200 feet high, and the skeleton of his dog was hanging from the rope where he tied him. His horse has just been discovered, and would have been suspended like the dog, but as the tree grew the bridle slipped down.

Two old codgers were were comparing experiences, recalling recollections of love's young dream, and sipping their toddy, the other night, when one remarked: "My wife was sweet enough to eat when I married her, but she soured on me badly." "I sometimes wish I had eaten mine, but she's too tough now." "If she was cut off the same piece as my companion, and you had done so, she would have disagreed with you." There is no one to disagree with the fact, that has ever used or seen used Barker's Horse, Cattle and Poultry Powder that it is the best in the market.

A HAIR-BREADTH ESCAPE. A BLOODY BATTLE WITH DEATH. THE VICTORY.

A traveling salesman for Barker's Horse, Cattle and Poultry Powder and Barker's Nerve and Bone Liniment, being in ill health, concluded to take a trip across the ocean and visit British India, one day he went to Jungle Creek, alone, to try his luck at fishing. When returning about dark, he was met by a savage lion when crossing a stream on an old tree, turning at once to go back, he was met at the other end by a fierce tiger, and on one side by a huge venomous snake, and on the other a ferocious man-eater. They all thirsting for the poor, sick fisherman's blood, and got into a terrible fight, during which time the fisherman escaped. The next morning a party of hunters found all four of the monsters near the same spot, they had fought till all were dead, the battle must have been terrible, as the ground for 100 feet square was covered with blood and the bodies were terribly mangled.

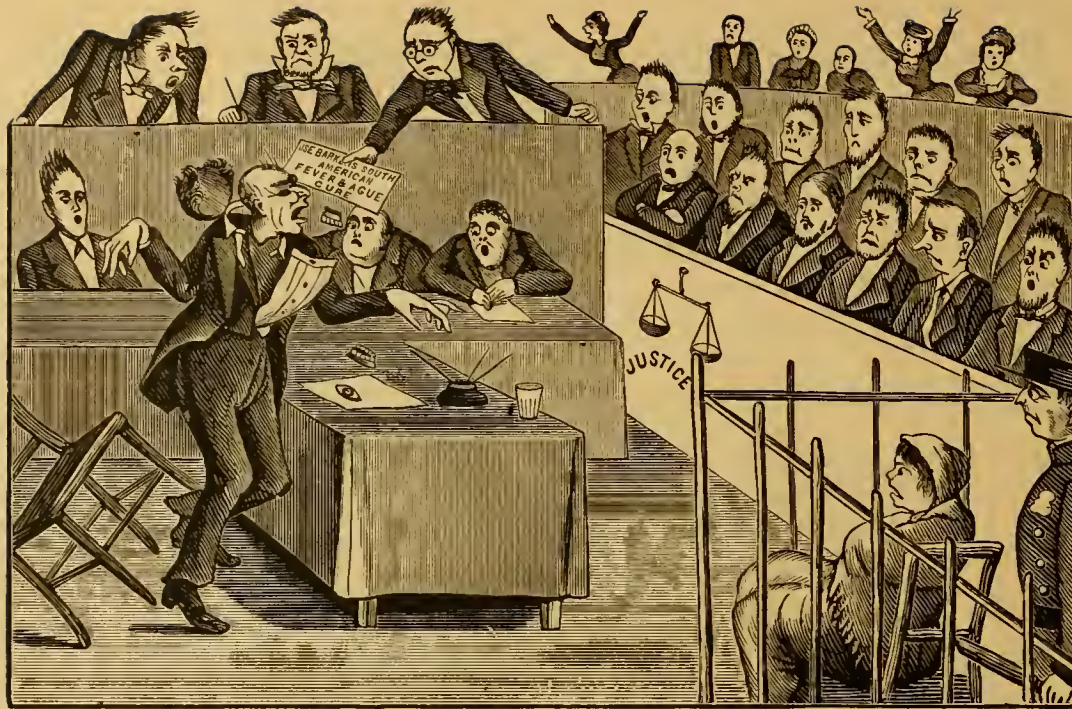

"Don't trouble yourself to stretch your mouth any wider," said a dentist to a patient. "I intend to stand outside to draw your tooth." If you don't want to stand outside in raising fine stock, use Barker's Horse, Cattle and Poultry Powder, it has been thoroughly tested.

The Sign Painter's Perilous Dream.—A Life Saved by the Piteous Cries of a Hungry Hyena.

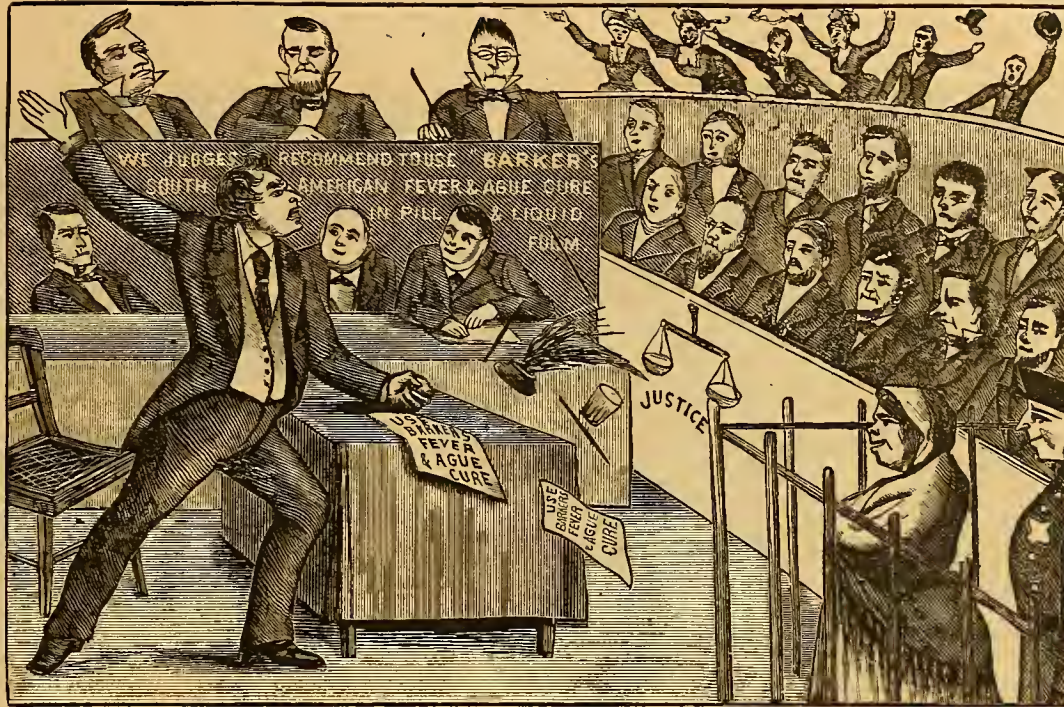

A sign painter while at work on the side of the rocks overhanging the river Nile, twenty-two hundred feet high, falls a sleep and dreams that he is superseded in his business by flying fowls, &c. He is awakened just at nightfall by the cries of a hungry hyena, and escapes through a narrow crevice in the rocks.

"A man when tried for stealing a dozen of Barker's Horse, Cattle and Poultry Powder and Nerve and Bone Liniment, said he only done it for a joke." It was found he was captured over a mile from the store where he stole it from, and the judge said, "he carried the joke too far." Whether you steal it or buy it, get the genuine, see fac-simile of it on page 17.

WONDERFUL EFFECTS OF BARKER'S SOUTH AMERICAN FEVER AND AGUE CURE.—Continued on next page.

Colonel Sellers, one of the most distinguished and eloquent criminal lawyers in this country, while delivering the closing speech to the jury in the celebrated trial of Mary Savage, a beautiful young girl only 16 years old, and daughter of a wealthy farmer. She was charged with cow hiding (in one month) 16 peddlers who were trying to sell counterfeits and imitations of Barker's Horse, Cattle and Poultry Powder. This eminent lawyer in his soul-stirring speech in her defence, which caused the whole court room to be flooded with tears, was attacked with a violent spell of chills and fever, which caused him to shake out his false teeth, also a false eye; he also shook off his wig and false shirt bosom, the president judge became so alarmed lest he should shake all apart, that he adjourned the court until the next term, and presented the Colonel with testimonials in writing from all the judges to take Barker's South American Fever and Ague Cure, and shake no more. Next term of court opens on next page after a lapse of one week.

Wonderful Effect of Barker's South American Fever and Ague Cure, Continued from Page 30.

Col. Sellers having entirely recovered from chills and fever, from the use of Barker's South American Fever and Ague Cure, is promptly on hand at the next term of court, and continues his closing speech in defence of Miss Savage, the beautiful 16 year old girl, who so nobly cowhided 16 unprincipled peddlers in one month, for trying to sell her a counterfeit and imitation of Barker's Horse, Cattle and Poultry Powder; the Col. occupied nearly an hour in addressing the jury, which promptly acquitted her without leaving their seats. For the Genuine Barker's Horse, Cattle and Poultry Powder, see fac-simile on page 17.

At a Cattle show, a big country fellow said: "Call this yer prize cattle! ain't nothing to what our folks raised. My pap raised the biggest calf of any man around our parts!" "I don't doubt it," said a bystander, "and the noisiest." No trouble to have prize cattle if Barker's Horse, Cattle and Poultry is mixed with their feed.

THE BICYCLE TELEGRAPH WIRE ADVERTISERS.

On their United States tour, distributing samples of Barker's Horse, Cattle and Poultry Powder for a trial, with testimonials of it. Also, circulars regarding Barker's Nerve and Bone Liniment, the great liniment for man and beast, a large bottle for 25 cents.

"I am going to write a work on Popular Ignorance," said a young physician. "I am glad of it," said a doctor, "for I know of no one more competent for the task." We have competent veterinary surgeons who have tested Parker's Horse, Cattle and Poultry Powder and Nerve and Bone Liniment, and highly recommend them.

How many apples did Adam and Eve eat? Some say Eve 8 and Adam 2—a total of 10 only. Now we figure the thing out differently. Eve 8 and Adam 8 also—total 16. And yet the above figures are entirely wrong. If Eve 8 and Adam 82, certainly the total will be 90. Scientific men, however, on the strength of the theory that the Antediluvians were a race of giants, reason something like this: Eve 81 and Adam 82—total 163. Wrong again; what could be clearer than if Eve 81 and Adam 812 the total would be 893? If Eve 811st and Adam 812, would not the total be 1,623? I believe the following to be a fair solution: Eve 814 Adam, Adam 8124 Eve—total 8,938. Still another calculation is as follows: If Eve 814 Adam, Adam 81242 Eve—total 82,056. We think this, however, not a sufficient quantity; for though we admit that Eve 814 Adam, Adam, if he 8181242 keep Eve company—total, 81,82,056.

CITY FOLKS' FIRST DAY IN THE COUNTRY.

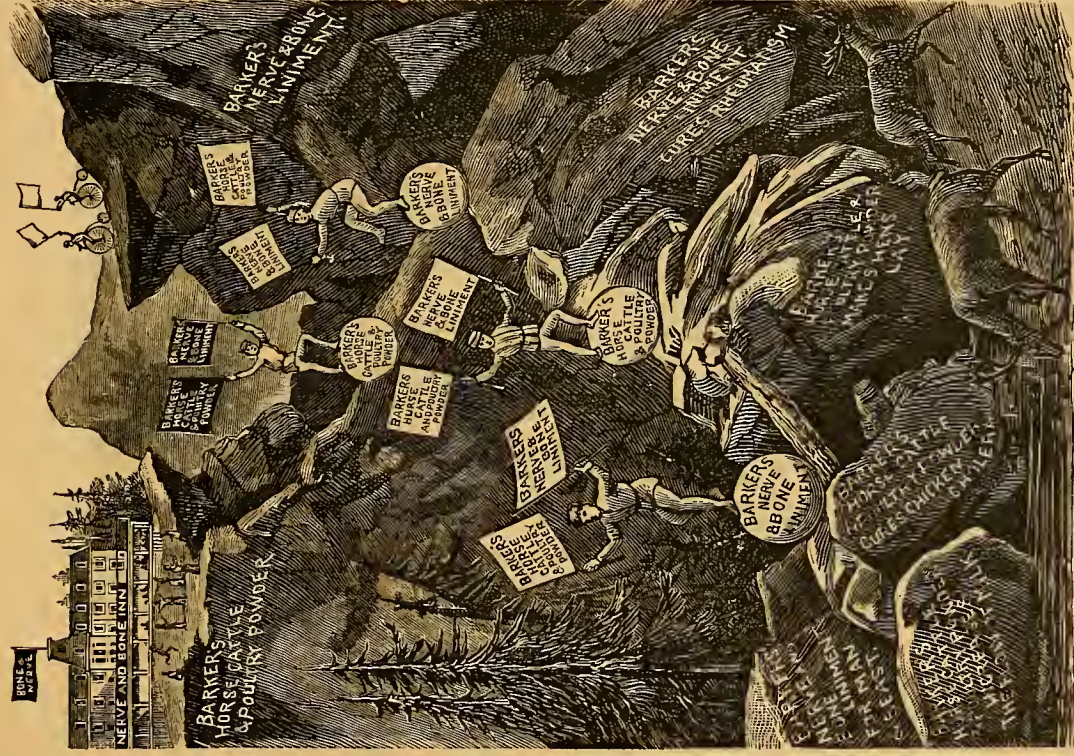

Caution to Farmers who Visit their City Friends.—Ephraim Smith, a farmer living about thirty miles from Philadelphia, brought a two-horse wagon load of produce to Philadelphia, which he sold in a short time, and it being a little too late to start back the same day, put up his horses and concluded to call and see a friend that he had not met for over 25 years, a bookkeeper in a wholesale store. His friend received him kindly and invited him to call up after supper and spend the evening with him and family, which he did; and after spending a pleasant evening he bid them good-bye, after a cordial invitation to visit him and his family during the summer which the bookkeeper and his wife said they would try and do. So when hot July came along, the trunks were ordered to be packed. A postal was sent to poor Eph. that they would start for his farm the next day. So they arrived; poor Eph. and his wife were almost paralyzed when they saw them coming up the hill. As the family consisted of eleven and a dog (a meat-setter), the farmer's stock was nearly all pressed in use. They went for fun and got it. After breakfast they were told to go down to the barn, where the stock were, and have a good time; before 9 o'clock every member of the family had met with some accident; even the dog while killing a sheep, was attacked by a goat and had his tail chewed off. The farmer's house was turned into an hospital, and all of Barker's Nerve and Bone Liniment in the neighboring stores was bought up to relieve and cure the cuts, bruises, sprains, &c. In a week they were all cured and started for home, instead of staying all summer. Now farmer Eph. accepts no invitations, and extends none.

PAT CALLS HIS WIFE OLEO MARGARIN, BECAUSE, HE SAYS, HE LOVES NO OTHER BUT HER.

\$150 against \$100 more butter. Messrs. P. Hughes & Son, druggists, of Middleport, Ohio, say: "Believe Barker's Horse, Cattle and Poultry Powder is the best in the market. Sold a paper of it, and inquired what he thought of it. Said one paper would make him \$100 to \$150 more butter than he could make from the same cows without it."

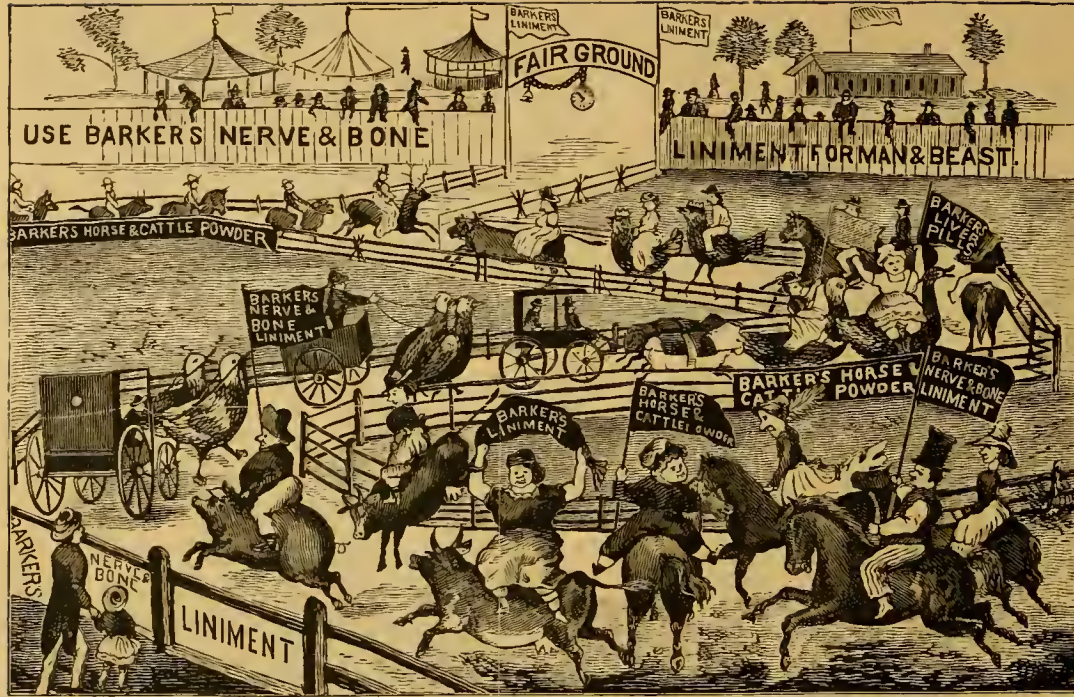

"Do you enjoy sleep, Bridget?" "How can I? The minit I lay down I'm aslape, an the minit I'm awake I have to get up. Where' the time for enjoyin it?" You can't enjoy any sleep if you have rheumatism, use Barker's Nerve and Bone Liniment, the great pain reliever, a big bottle for 25 cents.

THE NAUGHTY SCHOOL BOYS THAT WOULD HAVE A TOBOGGAN SLIDE.

At a country school, the teacher was, one stormy winter morning, snowed in, and did not arrive at the school house until it was three hours after the time; the boys, therefore, concluded to make a toboggan slide, from the hatchway on the roof out of the benches, and have a jolly good time in the teacher's absence. After they got through with the toboggan, the teacher started a flogging, but they soon got well of their marks and bruises by the use of Barker's Nerve and Bone Liniment, the great healer of bruises, cuts, &c., for man and beast. A big bottle for 25 cents.

MISTRESS (to new servant)—“We have breakfast generally about eight o'clock.” “Well” mmm, if I ain’t down to it don’t wait.” Don’t wait if your stock are sick, thinking they may get better, give them Barker’s Horse, Cattle and Poultry Powder, it is a great blood purifier and a tonic, it will keep them in a fine, healthy condition.

GRAND NATIONAL EXHIBITION

At the London Fair, by farmers, dairymen and stock raisers, for the Grand Prize of a Gold Hunting Case Watch and Chain, for the one producing the fattest horse, cow, hog, sheep, turkey, goose, duck or chicken, caused by Barker's Horse, Cattle and Poultry Powder.

Look out for counterfeits and imitations. Unscrupulous persons are trying to sell a trashy stuff, representing it to be made of same ingredients as Barker's. See fac-simile of the genuine on page 17. Ask for Barker's and take no other.

Garibaldi Comeigo, the Aristocratic Organ Grinder and his Pet Monkey in a Scrape.

Garibaldi and his pet monkey made daily rounds in the best neighborhoods, and the monkey became quite a pet in many places. He would climb up and enter the windows to collect pennies while his master was grinding out his terrible music. But the monkey got into the wrong pew, when he climbed up and entered an open parlor window where a poll parrot had possession. The parrot immediately attacked the monkey, but poor poll got the worst of it and retired in disorder, when a pet dog and cat hearing the racket came to the rescue. But the monkey had his hand in and soon brought them to terms, but not until the parlor was a complete wreck.

"THERE!" said the proud father, "what do you think of that for a boy?" "He appears to be quite a howling success," returned the disagreeable old bachelor. If you are howling from rheumatic pain, get a big bottle of Barker's Nerve and Bone Liniment for 25 cents and be happy.

Overstocked with eggs at 6 to 8 cents per dozen. Messrs. Wood & Lovinggood, merchants, of Canton, Ga., when re-ordering Barker's Horse, Cattle and Poultry Powder, say it is causing our country to be overstocked with eggs at 6 to 8 cents per dozen.

CAUTION, BEWARE OF COUNTERFEITS AND IMITATIONS.—Owing to the popularity and superiority of Barker's Horse, Cattle and Poultry Powder over all others in the country; unscrupulous persons have been induced to offer a spurious article, representing it to contain same ingredients as Barker's, they have also imitated the style of label and package. Therefore beware of counterfeits and imitations. Barker's Horse, Cattle and Poultry Powder is made by practical and reliable druggists, and contains thirteen ingredients in its compound, all having their medicinal properties suited to the different diseases animal flesh is heir to. Its record all over the country for nearly 30 years is sufficient guarantee for its reliability. See fac-simile of the genuine on page 17.

WHO STOLE THE GOOSE?

While a number of merchants and clerks were taking their vacation in the interior of New Jersey, last summer, a farmer who lived in the neighborhood where these gentlemen were stopping missed one of his geese. So he with his farm hands arrested a number of persons found near his premises, which included several wealthy city merchants and clerks, including thieving black Joe, the judge asked the farmer, when on the witness stand, if he could point out the thief, and he pointed out a respectable city bookkeeper, who was entirely innocent; but thieving black Joe corroborated what he said, and the judge sent the innocent bookkeeper to the penitentiary for seven years.

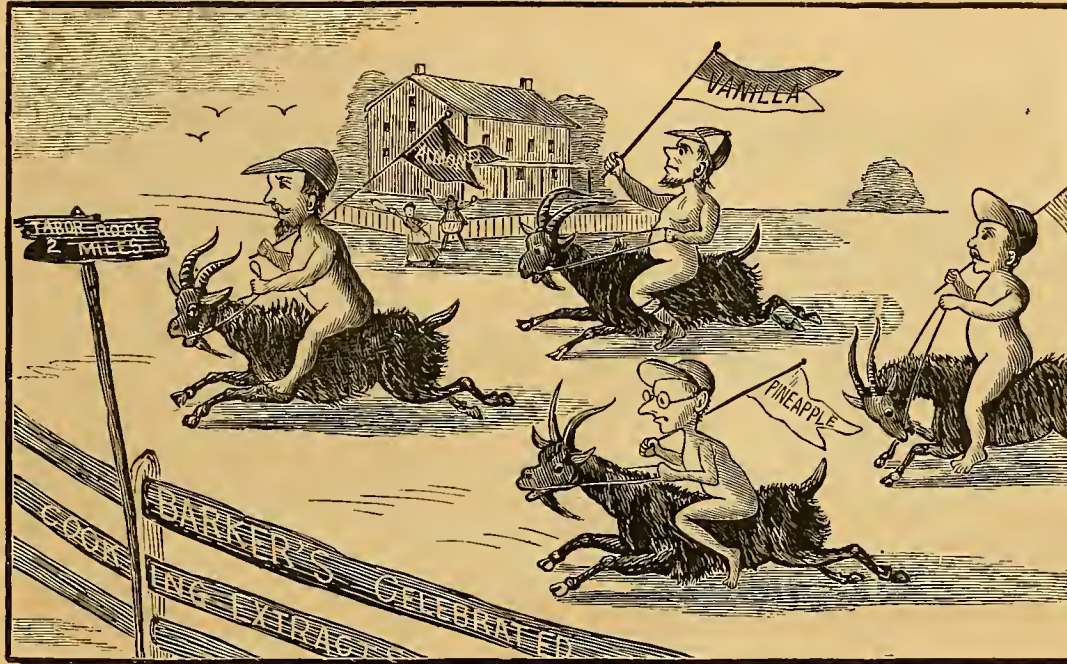

BOBBY GASSAM (to Mr. Sumway, who is spending the evening)—“Won't you show me your fiddle, some time, please?” Sumway—“Fiddle, Bobby! I have no fiddle.” Bobby Gassam—“Oh, yes, you have. Barker's Nerve and Bone Liniment will effect a speedy cure, the great great liniment for man and beast, a big bottle for 25 cents.

THE LOVERS' LEAP TO WIN A BRIDE.—Continued on pages 45 and 46.

Four rival lovers, all claiming the hand of a beautiful and highly accomplished young lady of sixteen years, who had inherited on her last birthday one million dollars. She had no special preference for any particular one of her lovers as she loved them all alike; very dearly, so she concluded to settle the matter by each one getting a wild Rocky Mountain goat, and ride a race of four miles to Tabor Rock, and each goat to jump with the rider from the rock down a precipice of 1,500 feet, the one escaping without injury to become the fortunate husband of the happy bride. They all accepted. She was to be located on a rock near the bottom to view them in the terrible pleasing tragic feat. With the parson, bridesmaid and groomsman, with a large wedding cake, weighing 472 pounds, flavored with four of her favorite extracts. Each lover was to carry a flag bearing the name of one of the extracts in the wedding cake.

The Start—The Chief Burgess officially reads the conditions of the race to the rival lovers, and offers them words of encouragement. Witnessed by 50,000 people. Continued on pages 45 and 46.

The baker always has his hour of knead, and needs Barker's Flavoring Extracts to make his pies and cakes delicious.

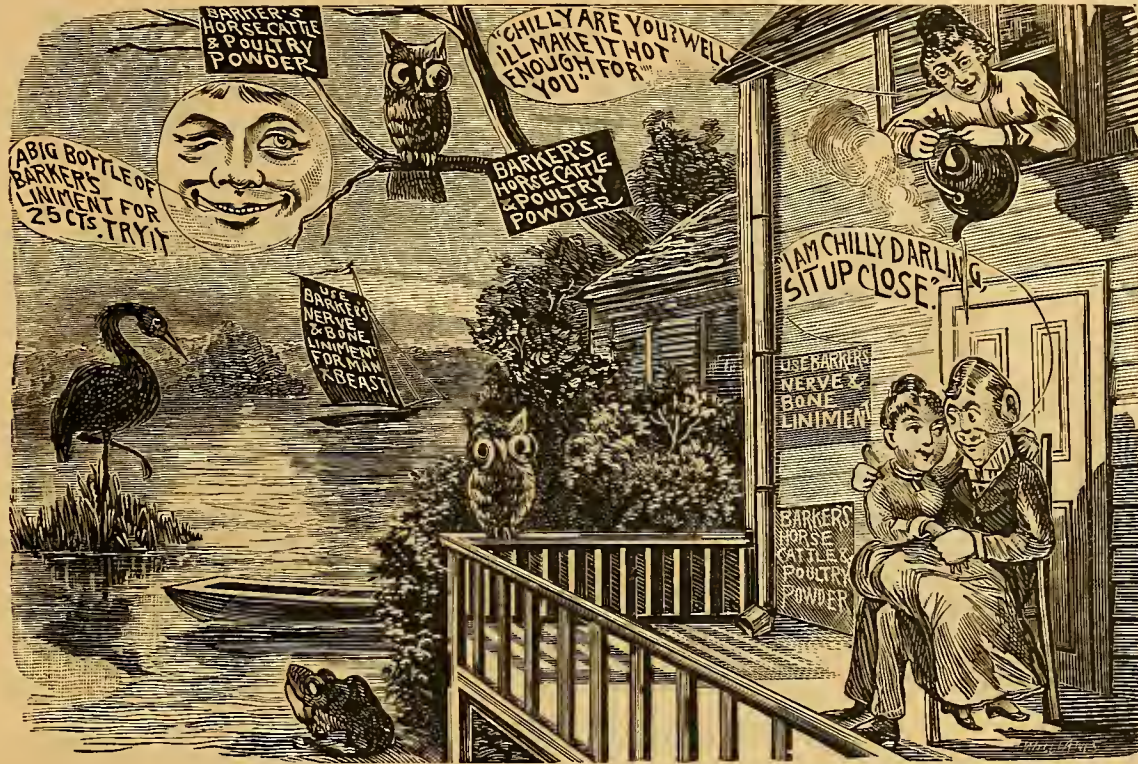

Judge (half headed)—If half what the witnesses testify against you is true, your conscience must be as black as your hair. Prisoner—If a man's conscience is regulated by his hair, then your Honor has no conscience at all. The man who sells a spurious Horse, Cattle and Poultry Powder and represents it to contain same ingredients as Barker's has no conscience at all. For punishment see page 18.

UNCLE HEZEKIAH AND AUNT DEBORAH IN A PICTURE GALLERY.

Uncle Hezekiah and Aunt Deborah concluded to celebrate the fifty-fourth year of their marriage by going to town and getting their photographs taken together; but they said: "The ternal flies was so bad that they couldn't hardly sit still," but said: "considering it was the first picture they ever had taken that it was pooty good." So after making several purchases, including Barker's Horse, Cattle and Poultry Powder and Barker's Nerve and Bone Liniment, they started with their oxen-team for home, as happy as clams at high water.

FRIEND—"Well, Ethel, how do you like married life?" Ethel (enthusiastically)—"It's simply delightful. We've been married a week, and have had eight quarrels, and I got the best of it every time." Her lovy always kept a supply of Barker's Nerve and Bone Liniment, the great healer of bruises, scalds, &c., a big bottle for 25 cents.

"Pop," said Willie, "what makes them call our old horse a 'plng'?" "Because he is such a stopper, Willie," replied the old gentleman. If you want a horse to go be must be kept in a healthy condition, which can be done by regularly mixing with the feed Barker's Horse, Cattle and Poultry Powder, it is a tonic and a blood purifier, and will keep the animal from disease.

A TERRIBLE LEAP FOR LIFE.

A party of five gentlemen, with their horses, while hunting in the Rocky Mountains, lost their way, and from the frequent falls of the horses in the crevices of the rocks, they became disabled and could go no longer, from the effects of the sprains, cuts and bruises. They were, therefore, obliged to camp among the rocks, and, being well supplied with Barker's Nerve and Bone Liniment, applied it freely. On the second night of their camping, they heard the war-cry of the Apache Indians. They began to feel that their fate was sealed, as their blood-thirsty screams sounded as if they were in large numbers. They therefore applied the Liniment unceasingly, while the howl of the blood-thirsty red skins was getting nearer. So, on Sunday morning, at four o'clock, they heard shots and yells near them, and knew their fate was sealed, unless their horses could travel. But a word, and they were up on their feet. The Liniment had done its work. Off they started, riders in saddles, at a frightful speed, pursued by hundreds of Indians. It was a chase for life, but the Indians were losing ground, their ponies were lagging. The five hunters had reached the top of the twin mountains, when they leaped across to the other side. They honned down the rocks and were safe. One Indian made his pony jump, but it was a fatal one, both went down between the mountains, 1500 feet, and were dashed to pieces. A large bottle of Barker's Nerve and Bone Liniment costs twenty-five cents.

Joy to the world, relief has come, use Barker's Nerve and Bone Liniment, the great liniment for man and beast. Highly recommended for human beings. A large bottle for 25 cents. A TERRIBLE SHOCK WHICH STOPS THE FLOW OF NATURAL GAS.

A terrible shock was supposed by people at a distance to be a Charleston earthquake; but it was soon learned that a gassey candidate for sheriff, who had been blowing about himself for over an hour from the top of a whiskey barrel, had been attacked in the rear by two disgusted fellows with substantial clubs, which bonned the candidate about ten feet in the air. At last accounts he was rapidly recovering by the use of Barker's Nerve and Bone Liniment, the great reliever of pain from bruises, sprains, rheumatism, stiff joints, frost bites, swelled legs, caked breast, weak joints, scratches, a big bottle for 25 cents. See fac-simile of the genuine; also of Barker's Horse, Cattle and Poultry Powder on page 17.

History of the Old Woman that Lived in a Shoe, from her Birth to her Disappearance in the Mountains.—With Four Illustrations.

No doubt every reader in the civilized world have learned something in their youthful days, about the old woman that lived in the shoe, who had so many children she didn't know what to do. But as to the locality in which she lived, and the number of her children and other matters of importance relative to her, have remained a mystery. Up to the present time, which by special request, we give a brief history from her early life to her supposed sad and tragic death. Her maiden name was Biddy Muldoony, and was born on the 24th day of the 4th of July, in the year of 1452. Her parents were French, being born in Limerick, County Down, Ireland. She married at the age of 18 years a man by the name of Cain, a stepbrother of that wicked man Cain, who brutally murdered his little brother Abel with a club, which many of you have never read an account of. Full particulars of it were published many years ago by a very meek and good man by the name of Moses (look it up). After the marriage they emigrated to Javinia, the hottest part of the Torrid Zone, where the thermometer averages 265 degrees. Above Niblo, water would boil every day at noon. Her husband was sunstruck and instantly killed one January morning at 4 o'clock while working in the harvest field. This so distressed poor Biddy, that she determined to leave the country, and therefore called on our Agent, then United States Minister to that country. He telegraphed to us, and we gave immediate orders to have her emigrate to America and we would pay all expenses, providing she would be transferred in the original shoe to advertise Barker's Horse, Cattle and Poultry Powder and Barker's Nerve and Bone Liniment over the route by land and sea, which she cheerfully agreed to.

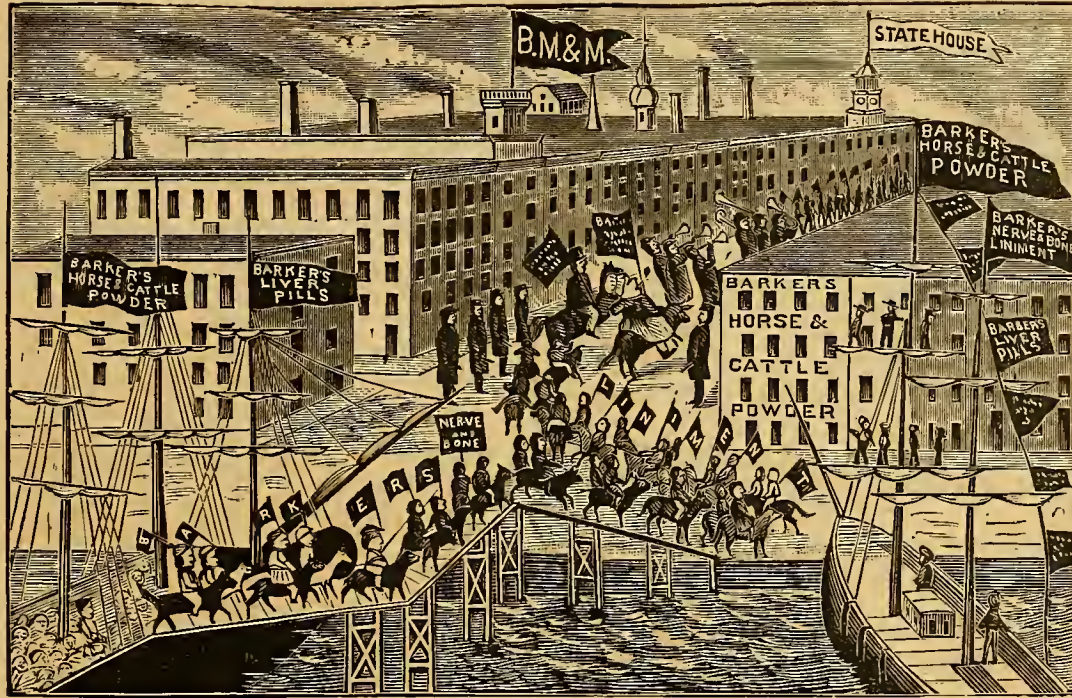

THE OLD WOMAN THAT LIVED IN THE SHOE emigrating to America with her 625 children, who were making the air melodious with singing the Sweet Bye-and-Bye, in the original shoe in which she lived, drawn by 34 Javinia dogs, the farm stock being led a distance of 75,000 miles to the Atlantic Ocean. Continued on pages 56, 57 and 58.

THE OLD WOMAN THAT LIVED IN THE SHOE, Continued from page 55,

Crossing the Atlantic Ocean in the great Shoe Ship with her 625 children. After a journey of 75,000 miles on land, which took one year and three days, they arrived at the Atlantic Ocean, where the same Shoe was in a few days, put in ship shape and the great Shoe Ship was sailing out on the Atlantic Ocean, and over 600 voices was singing "A Life on the Ocean Wave" and "A Home on the Rolling Deep." They were attacked by sharks and whales. Some of the farm stock, swimming behind the Shoe Ship suffer. After a rough voyage of six months and three days they arrived at Philadelphia, where they were met at the wharf by the Mayor and City Councils. Continued on pages 57 and 58.

THE OLD WOMAN THAT LIVED IN THE SHOE, Continued from pages 55 and 56.

Arriving in Philadelphia with the great Shoe Ship and her 625 children, after a rough voyage of six months and three days, were received by the Mayor and City Councils headed with a band of music, and were escorted to Independence Hall, from thence to the Continental Hotel, where a grand banquet was given them, the President of the United States and Cabinet participating. The next morning at four o'clock the shoe had been put on runners, the children all being ready amid the sounds again of the Sweet Bye-and-Bye, started across the Allegheny Mountains on the way to Kansas, to their intended future home. Continued from pages 55 to 58.

THE OLD WOMAN THAT LIVED IN THE SHOE, Continued from Pages 55, 56 and 57,

With her 625 children leaves Philadelphia at four o'clock in the morning to cross the Allegheny Mountains for their new home in Kansas. Wild animals attack them going down the mountains. Sad tragic end. While going down a steep mountain, the dog team became wild with excitement at seeing a number of wild animals, started at a frightful rate of speed, and were all dashed down the mountains, and struck the side of another with such force that they went completely through, leaving only a space as large as the shoe. Sir John Bologna, with a party of 500 men are exploring the opening in the mountain made by them, for 400 miles, without the slightest trace of them, except an empty bottle labeled Barker's Nerve and Bone Liniment, the great liniment for man and beast. See fac-simile of bottle on page 17.

Old Uncle Pete Gubbison's Way of Raising Chickens, Geese, and all kinds of Poultry by Hand.

Old Uncle Pete Gubbison, says. "Barker's Horse, Cattle and Poultry Powder can't be beat for making chickens, geese, and all kinds of poultry grow and keep them fat and healthy, and produce a large amount of eggs, but when it comes to raising them, me and my old woman and children can raise more by hand about 12 o'clock at night den a heap of powder can do. Golly, it a fac."

THEY were discussing an elopement, and one lady talking to her friend, said: "Don't you believe it would kill yon if your husband was to run away with another woman?" "It might," was the reply; "great joy sometimes kills."—Great joy is produced by the use of Barker's Nerve and Bone Liniment. For man and beast, a large bottle costs 25 cents.

When the dog gets after the boy in the melon patch, and there are no trees handy, he sings: "Oh, for the garden wall!"—If the boy should get injured in getting over the wall, he would sing: "Oh, for a bottle of Barker's Nerve and Bone Liniment."

TAKING CARE OF THE HARVEST.

There is perhaps no class of people more imposed upon than the worthy farmer. The illustration above may convey some idea how his crops are divided up without his consent. He has our sympathy, and we give this advice free—that if he will give his horses, cows, sheep, hogs, and poultry Barker's Horse, Cattle and Poultry Powder, it will add enough to their value to make up for the loss in stealing.—“A word to the wise is sufficient.”

In the country they blow a horn before dinner, but in town they take one—You can take one large bottle of Barker's Nerve and Bone Liniment for 25 cents. The great liniment for man and beast. Has been sold for over forty years and gives satisfaction.

NOVEMBER THANKSGIVING.

PROCLAMATION FROM A CROWNED HEAD.—Whereas—Know all ye men by these presents, that Thanksgiving Day being near at hand, and as we don't belong to Gideon's Band, we'll emigrate to a heathen land. No, thanks. (Signed) Turkey Gobbler. Approved by Goose, Duck & Co.

SPECIAL NOTICE.—For Gapes, Chicken Cholera, Sore Throat, and all other poultry complaints, mix one pack of Barker's Horse, Cattle and Poultry Powder with about eight quarts of feed, and give twice or three times a week; it is also an excellent thing for healthy fowls. It will make them plump, fat and healthy, keeps away diseases and largely increases the quantity of eggs.

Make your own Poultry Food. See receipt on side of package Barker's Horse, Cattle and Poultry Powder.

A TOUGH CHRISTMAS DINNER.

A Christmas dinner given by a too much economical farmer, who claimed that he could make his fowls fat and tender without the use of Barker's Horse, Cattle and Poultry Powder mixed in their feed, resulted in the adage, "penny wise and pound foolish."

What is the difference between an oak tree and a tight shoe? One makes acorns and the other makes corns ache.—When you have pains that ache from bruises or other external injury, apply Barker's Nerve and Bone Liniment, the great liniment for man and beast, a big bottle for 25 cents.

OKLAHOMAS LAND GRAB

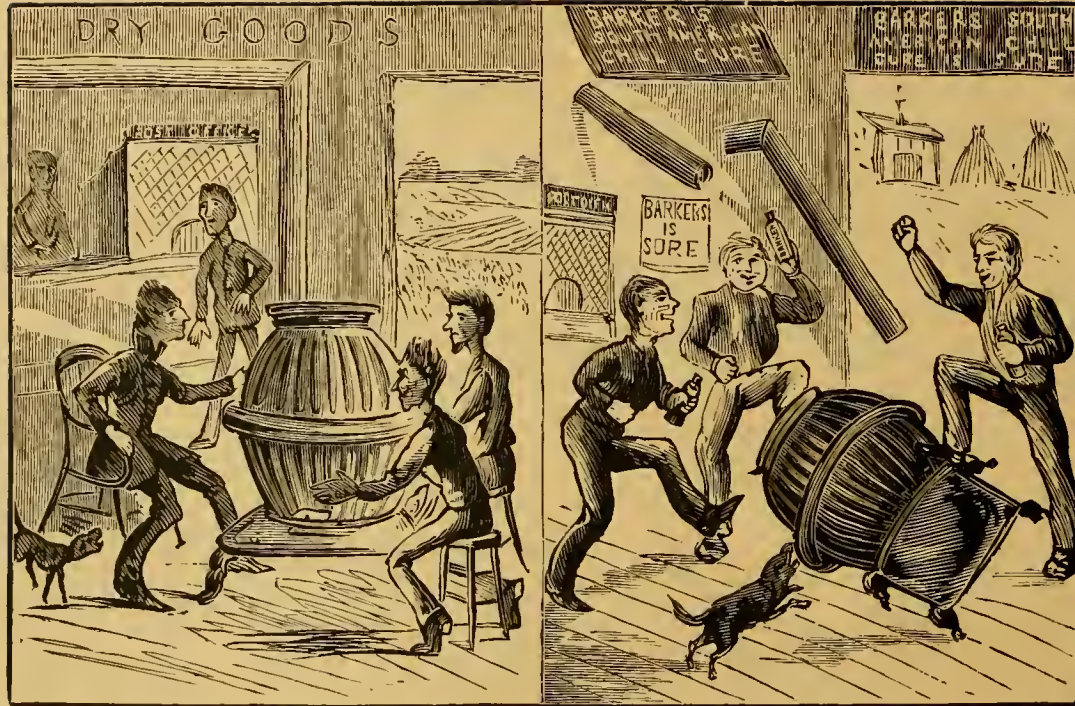

The Great Oklahoma Land Grab. Nearly Every Nation Represented in the Grand Rush.

When generous uncle Sam offered land to every one who would settle at Oklahoma, there was a wild rush for the choicest places, many persons were deceived by false representations; as it is with land so is it with hundreds of others, especially Horse, Cattle and Poultry Powder.

DON'T BE DECEIVED.—There are other powders in the market claiming to be as good and containing same ingredients as Barker's.

BEWARE OF COUNTERFEITS.—There are also liniments called nerve and bone; see fac-simile of the genuine on page 17.

Wonderful Effects of Barker's South American Fever and Ague Cure.

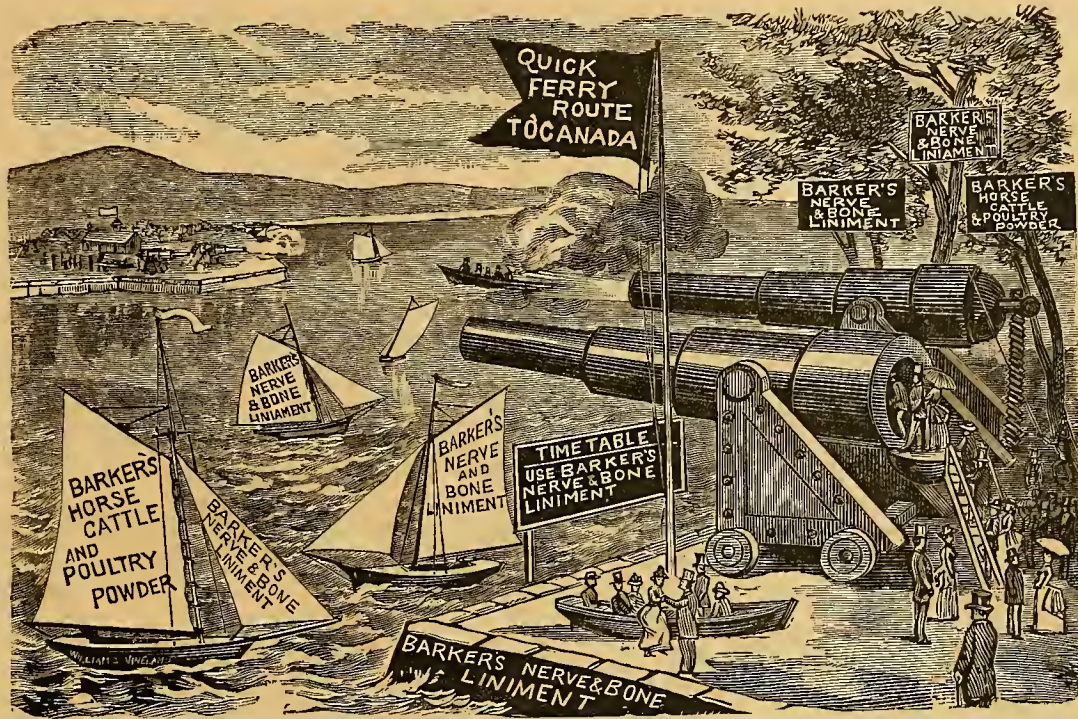

BEFORE TAKING.

Scene in store during harvest time in a chill district, too chilly to attend to the crops before the introduction of Barker's South American Fever and Ague Cure.

THE man who makes hay while the sun shines often gets sunstruck.—The farmer who bought Barker's Horse, Cattle & Poultry Powder struck a big thing, ask any farmer who uses it. Why are good base ball players like ladies when a shower comes up? They make a home run and polish up their shoes with Barker's Brazilian Shoe Dressing and make them like new.

AFTER TAKING.

Ha ! ha ? No more stoves in harvest time since the introduction of Barker's South American Fever and Ague Cure.

RAPID TRANSIT ACROSS NIAGARA RIVER FOR TRUSTED THIEVES.

A long want at last supplied, the large increase of travel by cashiers, bookkeepers and others entrusted with the people's money, who totally ignore the Eighth Commandment, and find it necessary to go to Canada Quick, has caused a new invention at Niagara, which puts them across the river in a few seconds, by firing them from a boat which is placed in a large Krupp cannon, which lands them safely within a few rods of a first-class hotel, where they are safe from arrest by the United States authorities.

SUNDAY-SCHOOL teacher asked: "What bird is large enough to carry off a man?" Nobody knew; but one little girl suggested "a lark." And then she explained: "Mamma said papa wouldn't be home before Monday, because he had gone off on a lark."—When you want to go faster than a lark, give your horse Barker's Horse, Cattle and Poultry Powder, and jump on.

OUR SPECIAL ARTIST.

Monsieur De Lowantaganzreuzie, of Paris, as seen in his studio, making original pictures for Barker's Horse, Cattle and Poultry Powder, Barker's Nerve and Bone Liniment, Barker's South American Fever and Ague Cure, Barker's Liver Pills and Barker's Celebrated Flavoring Extracts, all standard preparations that have been thoroughly tested.

"DEAR me, what charming little birds! They are perfectly exquisite." "They are not birds, my dear," replied her country cousin, "they are butterflies," "Oh, you don't say so. Then these are the dear little creatures that fly from flower to flower and gather the sweet yellow butter that we use." Reliable testimony is presented showing that when Barker's Horse, Cattle and Poultry Powder is mixed with the feed, that the increase of butter is quite large.

SCENE IN FRONT OF THE NERVE AND BONE HOTEL DURING THE ANNUAL CONVENTION OF THE BUTCHERS' NATIONAL PROTECTIVE ASSOCIATION, which was held in Philadelphia, May 21st to 24th, 1888, during which was an imposing street parade on horse back, and winding up with a Grand Barbecue at Schuetzen Park, at which 50 large steers and 100 extra Southdown sheep were roasted and served with 8000 loaves of bread to the public, free of charge, which numbered many thousand. 60 cords of wood were consumed by the fire in preparing the roast; 450 pounds of butter was used for basting, which kept over a dozen men busy. In addition to the Barbecue, there were athletic games, bicycle race for prizes, dancing, &c., all interspersed with delightful music by a number of celebrated bands, making the whole affair a grand success.

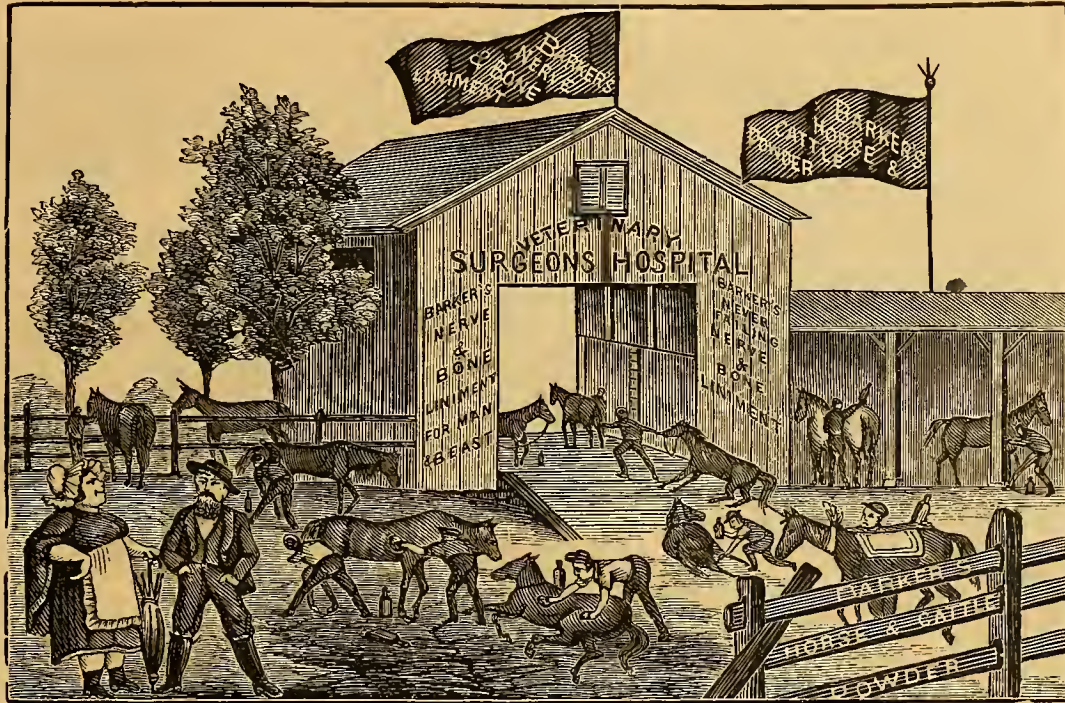

WHEN is a caterpillar like a hot cake? Give it up. When it makes the butter-fly. The increase of butter from the pure, rich milk produced by the use of Barker's Horse, Cattle and Poultry Powder will astonish you. A trial will convince you, and you will always use it.

A BULLY HIGH OLD TIME STEALING PEARS.

A farmer who has a pear orchard which produces some very choice fruit has been very much put out every season by the pears being stolen. He therefore concluded to try a remedy; so he put two cross bulls in the orchard, also two cross bull dogs, and under several trees he put bee hives, and gave the thieves a bully high old stinging time. The thieves are doing well, from last accounts, from the use of Barker's Nerve and Bone Liniment.

A BAPTIST and a Methodist were riding out together before a storm; the Baptist suggested they should go faster, the Methodist said: "Why, brother are you afraid of the water?" "Oh, no, said the Baptist, I am not afraid of the water, its the sprinkling I wish to avoid." To avoid diseases among your cattle, give them Barker's Horse, Cattle and Poultry Powder.

VETERINARY SURGEON'S HOSPITAL.

For the cure of lame horses and all external ailments with Barker's Nerve and Bone Liniment, the old and well-tested liniment for man and beast. Mrs. McNulty, a respectable Irish woman, that has for many years peddled milk around the city with a horse and wagon, says her horse became so lame that the Society for the Prevention of Cruelty to Animals took charge of him and sent the poor animal to the hospital for treatment; in a few days the old lady called at the hospital to learn how the horse was getting, and was told by one of the doctors that he was sound and well, that after curing him of lameness, they gave him Barker's Horse, Cattle and Poultry Powder to tone him up; but she couldn't think that a horse so lame and run down could be cured so quick. So to test the truth of it jumped on old Barney's back and away she went. See the old lady as she goes over the trotting ground, on next page 86.

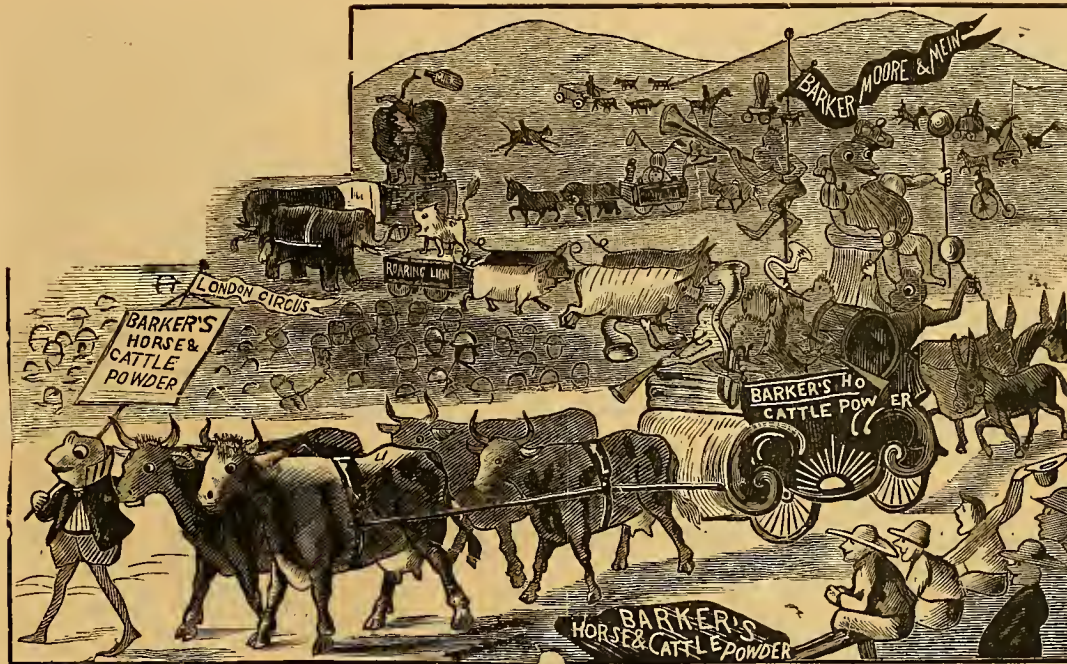

TEACHER (infant natural history class)—"You will remember that, will you, Tommy, that the wasp lies in a torpid state all winter?" Tommy (with an air of retrospection)—"Yes'm, an' I'll try an' remember that they make up for it in summer." For a sting, bruise, rheumatism, &c., use Barker's Nerve and Bone Liniment.

VETERINARY SURGEONS' TROTTING GROUND, Continued from page 85.

For testing horses that were lame or suffering from other external ailments and cured by Barker's Nerve and Bone Liniment, the great liniment for man and beast, it is an old standard horse liniment, has been popular in the market for nearly forty years. If you try it you will find it reliable and always keep it as a ready remedy. Mrs. McNulty takes the lead on the trotting ground. Barker's Nerve and Bone Liniment cures rheumatism, sprains, bruises, stiff joints, lameness, corns, hip joint lameness, contraction of the muscles, frost bites, scratch, shoe boil, swelled legs, cake breast, &c. For man and beast, a big bottle for 25 cents.

"I'm sorry to see you so agitated," said the churn-dasher to the cream. "Oh, never mind—I'll be better soon." To produce good butter you require rich milk. If Barker's Horse, Cattle and Poultry Powder is mixed with the cows feed it will purify the blood and put her in a healthy condition and largely increase the flow of rich milk, give it a trial, it has been thoroughly tested and never known to fail.

GREATEST POSSIBLE SUCCESS.—Mr. George N. Beaton, of Branchville, Va., breeder and shipper of high-class poultry, in a communication, says: "I have used Barker's Horse, Cattle and Poultry Powder on my own poultry with the greatest success, both as a cure and preventative of cholera. My customers give it the best name."

DISEASE AMONG FOWL.—Mr. W. A. Lawrence, merchant, of West Bergen Sta., N. Y., says: "Barker's Horse, Cattle and Poultry Powder has proven to be a very fine thing. As there was some sort of a disease among the fowl here, I first tried the powder on my own fowl, and it had the desired effect, curing them. I had no trouble to sell the balance."

THE GRAND TEST AT SUFFOLK PARK

In a five mile race under the saddle, between five horses that had been accustomed to getting Barker's Horse, Cattle and Poultry Powder regularly in their feed, and five that had not. The ones that never got the Powder were left away behind, and so were their friends when they got to the railway station to take the train for home.

Why is a stick of candy like a race horse? Because the more you lick it the faster it goes. A horse that gets Barker's Horse, Cattle and Poultry Powder will go without licking.

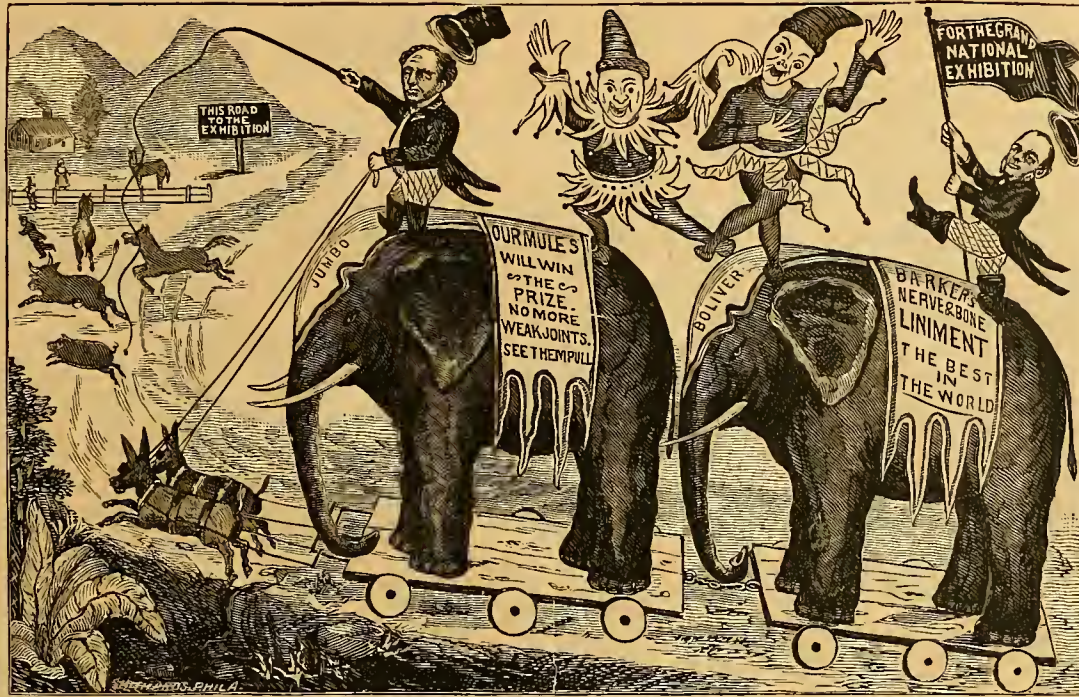

BLOWING UP COUNTERFEITS.—GUNPOWDER AND BALL INSURES PROTECTION TO ALL.

CAUTION.

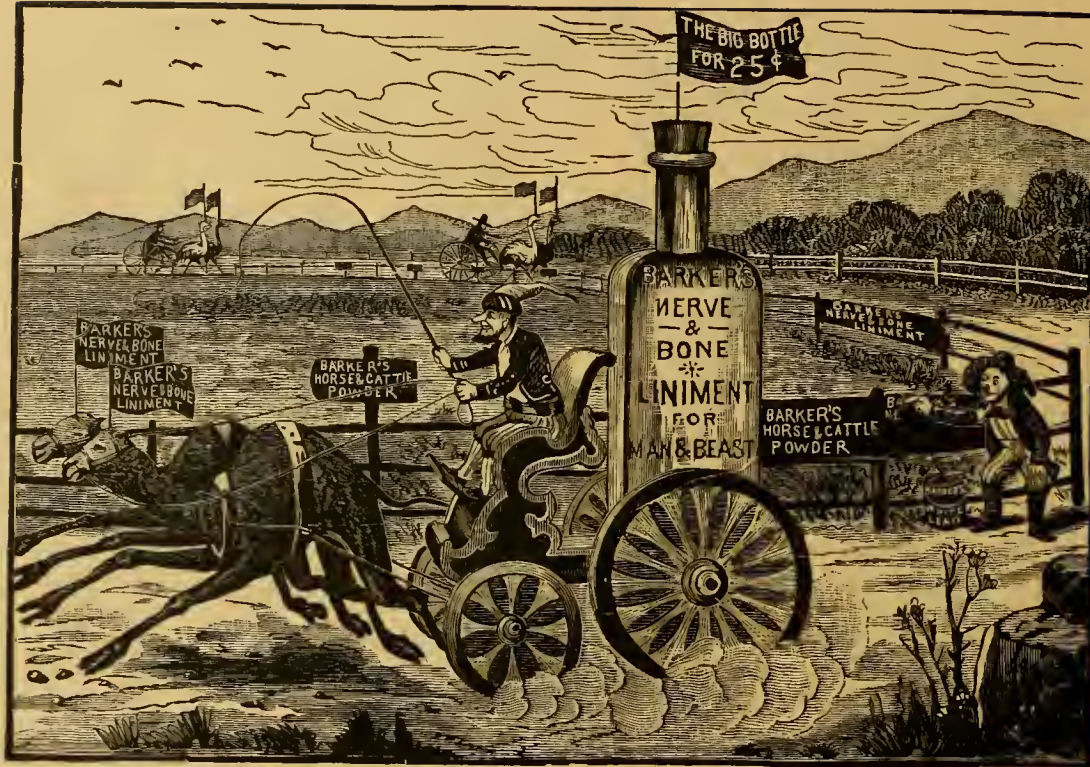

The country is full of fraudulent stuff called Horse and Cattle, Stock, Poultry and Condition Powders, and by various other names, made by parties who have no practical knowledge of what medicines should constitute a Horse, Cattle, Stock and Poultry Powder. Barker's Horse, Cattle and Poultry Powder is made by practical druggists, and contains thirteen ingredients in its compound, all having their medicinal properties, suited to the different diseases that animal flesh is heir to. Its record for nearly thirty years is a sufficient guarantee for reliability.

BEWARE of Stock Powder claimed to contain same ingredients as Barker's.  Ask for Barker's and take no other. See fac-simile of the genuine powder and liniment on page 17.

On to the World's Fair, Chicago.—Testing Barker's Horse, Cattle and Poultry Powder for Strength.

"Yes?" exclaimed Mrs. Montague, as she pinned the last "rag" on the clothes line and settled down to a tete-a-tete over the rear fence with her neighbor, Mrs. Bangerhar. "My husband is smart enough at home, but when he goes out in society he is very quiet. Now, why's my husband like a kerosene lamp?" "Well," replied Mrs. Bangerhar, hesitatingly, running a hair-pin through her glossy locks, as if in search of an answer, "I suppose because he is apt to blow you up." "Not much," returned Mrs. M., "he's acquainted with me." "It isn't because he gets full every night, is it?" Just then Mrs. Montague grasped the clothes prop and struck Mrs. Bangerhar over the shoulders, and now she is using Barker's Nerve and Bone Liniment, the great reliever of bruises, also sprains and cuts, a big bottle for 25 cents.

A STUBBORN BATTLE, A LOT OF FARM HANDS ATTACK AN ARMY OF POTATO BUGS.

A lot of farm hands attack an army of potato bugs, both sides fight stubbornly for over two hours. When the farm hands became demoralized and retreated to a barn, where they received reinforcements, and made another attack, totally exterminating the bugs, many of the farm hands while scaling stone and rail fences were badly cut and bruised; but are rapidly recovering by the use of Barker's Nerve and Bone Liniment, the great healer of cuts, bruises, sprains, rheumatism, and all external wounds, for man and beast. A big bottle for 25 cents.

The Great Race at Slum Town on the Old Slum Town Race Course.

The most exciting race of the season occurred on the Fourth of July, at Slum Town Race Course, by three aristocratic dudes, for a purse of 15 cents, to be presented by the aristocratic circle in which they moved. Isaac Black's critter might have come in second best, but the animal was so thin that he came apart.

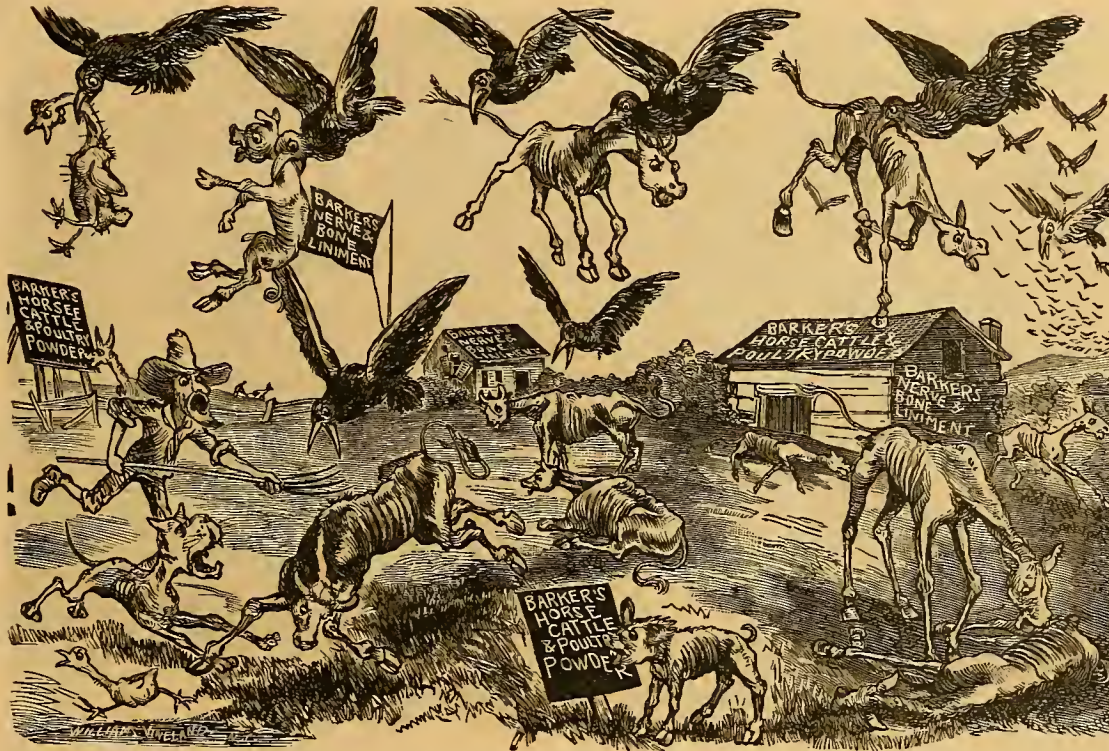

"MY BRETHREN," said a Western minister, "the preaching of the gospel to some people is like pouring water over a sponge—it soaks in and stays. To others it is like the wind blowing through a chicken coop." "My experience of this congregation is that it contains more chicken coops than sponges."—Whether your chickens be in a coop or not, give them Barker's Horse, Cattle and Poultry Powder with their feed. It makes them healthy and fat, and increases the laying of eggs at least 25 per cent, so says a reliable farmer.

ANIMALS ON THE WAR PATH.

People of unquestionable reliability assert positively that there is nothing equal to Barker's Horse, Cattle and Poultry Powder for horses, cattle, hogs, sheep and poultry, and as it has stood the test between 35 and 40 years, no one need hesitate to use it, as it is thoroughly reliable.

A great deal of the Horse, Cattle and Poultry Powder on the market amounts to as much as a race between the clothes horse and the nightmare. Ask for Barker's Powder and you will not be deceived. It has stood the test for many, many years, and can be relied on.

ABE GUZZLER, ONCE A WEALTHY FARMER, NOW A BANKRUPT.

Abe Guzzler when his horses, cattle, hogs, sheep and poultry were dying rapidly from disease, was told to give them Barker's Horse, Cattle and Poultry Powder, said he hadnt the money to spare, at the same time had plenty to buy tanglefoot; the result was he lost all his stock and became a hankrupt. If Barker's Horse, Cattle and Poultry Powder is given to horses, cattle, hogs, sheep and poultry regularly, it will ward off disease and keep them fat and healthy, it has been thoroughly tested.

"I COULD gaze at the moon for hours, Mr. Sampson," she said in a voice full of sweetness and pneumonia, "I never tire of it." "Ah," he responded, "would that I were the man in it." "Yes," she assented softly. "And why, Miss Clara?" he asked, getting ready to take her hand. "Because, Mr. Sampson," she said, slyly veiling her eyes with their long lashes, "you would be 4,000,000 miles away. How Uncle Hugh Cole, the Faithful Old School Master of Donegal, was Tricked by a Mischievous Scholar.

The master promised the boys if they were good for a half day, he would let them out in time to see the circus parade, but they were bad and he said they should be kept in; but a mischievous boy with a sun glass put it into use on the old teacher's head; which produced such a violent headache that he had to dismiss the school, and they all got to see the parade.

A DOCTOR boasted that he cured his own hams. A neighbor said I would sooner be your ham than your patient. Good hams can only be procured from healthy fat hogs, and the way to get them that way is to mix Barker's Horse, Cattle and Poultry Powder with their feed, it has been thoroughly tested.

A Stingy Old Farmer Brought to Grief and Want, and at Last a Violent Death.—Continued on Page 109.

A Stingy Old Farmer refused to give his stock Barker's Horse, Cattle and Poultry Powder to keep them healthy. At last a disease broke out among them; he still refused to spend a little money for Barker's Horse, Cattle and Poultry Powder, and they began to die off by scores. The surrounding farmers who fed Barker's Horse, Cattle and Poultry Powder had healthy, fat stock. An Indignation Meeting was held by the surrounding stock, and it was concluded to give the Old Miser a Jury Trial, they to be both Judges and Jury, which was done with a quick conviction. See jury trial before three judges on page 109.

HOME PROTECTION.

Two Englishmen recently arrived in America with a number of full-blooded bull dogs, which they were taking through the country and selling to farmers at a good price. A terrible storm came up when near a farm house, and the dogs rushed for shelter to a big horseshed that laid at the road side, in which a number of cats had been driven by the rain, as the dogs approached a fierce fight began for possession of the hogshed, but the cats held the fort with a loss of three killed; five dogs out of six were killed, and the surviving one lost both eyes.

AN IRISHMAN, who had been contending that a mule was a nobler animal than a horse, was pressed to explain the preference, and therewith acknowledged that a mule had saved him from drowning. "How was that, Pat?" asked a bystander. "Faith," said Pat, "he gave me such a kick with his hind leg that he landed me on the other side of the canal, instead of in it." Pat was badly bruised, but soon got all right by using Barker's Nerve and Bone Liniment the great liniment for man and beast, a big bottle for 25 cents.

A REMARKABLE CASE OF AFFECTION BY A HOME SICK MULE COLT.

The wonderful power of maternal affection in the case of a mule colt sold by a farmer to a passing drover, and taken a distance of 200 miles across the mountains from its home. During the journey it would eat nothing. When the drover arrived home with his drove of horses and mule, he put the mule in the stable and offered it different kinds of feed, but it would eat none of them. So he turned it into the barn yard, and during the night it jumped the fence; in a few days the drover received a letter from the farmer of whom he had purchased the mule colt, stating that during the night it had reached his place and was only a living skeleton and would certainly die, the drover replied, if you can build him up and save his life, I will present him to you, the farmer commenced to give it plenty of Barker's Horse, Cattle and Poultry Powder in wet feed, and in a few weeks he was a sound, healthy, robust mule.

A Young Man in Philadelphia Hears That There is a Good Opening In Florida for a Live Young Man.

John Henry McCubbison, of Philadelphia, wrote to his uncle Joe, in Florida, a swamp farmer and alligator hunter, asking him if there was an opening there for a healthy, active boy. Uncle Joe, who had lost all his boys by being swallowed by alligators, answered him yes. Come at once. So John packed his traps and started at once, delighted to know that there was an opening for him. In about two weeks he arrived at uncle Joe's, a place surrounded by swamps and water. John's duties were soon made known by uncle Joe, but in order to get acquainted with the surroundings, loaded an old musket full of slugs, for him to take a short hunt in the swamps for ducks, cautioning him to keep away from deep water. John soon discovered a duck and was so excited that he forgot the musket was loaded, and quickly rammed another load in and blazed away, the double load went into uncle Joe's mule and dog, killing them both, and kicking John up in the air about ten feet and lit him into the jaws of an immense alligator, which immediately swallowed him; the opening for the young man was therefore promptly filled, and no questions asked.

Lovers Who Expressed a Desire to Fly, With Some Assistance Flew.

A sign painter at Long Branch, when painting on rocks and land marks, discovered two lovers watching a large ship, he quietly slipped up and commenced to paint a sign on her silk parasol; he was having his fun, so was three big, hilarious Darby rams that came down the embankment on a gallop and butted sign painter and lovers head over heels, and they went flying into the ocean. The lovers were soon rescued; but the poor sign painter was quickly swallowed by a man-eating shark, and was not heard of for six weeks, when he was discovered on the banks of Newfoundland, painting signs, where he had been thrown up by the shark. A Sea Shore Courtship Dampened By Three Hilarious Darby Rams.

Love's bright dreams disturbed, not by nightmare, but by three hilarious Darby rams, who have made themselves strikingly unpopular, especially with two lovers and a once bappy sign painter, who had hardly struck the ocean when he was consigned to the stomach of a man-eating shark, where he remained six weeks doing penance, and afterwards cast up on the banks of Newfoundland, where he was discovered by a passing steamer, as he was painting signs on rocks, &c., for Barker's Horse, Cattle and Poultry Powder and Barker's Nerve and Bone Liniment. Continued from page 124.

A YOUNG LADY received the following note, accompanied by a bouquet of flowers: "Dear Jane, I send you bi the boy a bucket of flours. This is like my love for u. The nite-shade menes kepe dark. The dog fenil menes I am your slave. Rosis red and posis pail, my love for you shall never fale." He called to see her the next day, and she received him with a rolling pin, and he is now using Barker's Nerve and Bone Liniment, the great liniment for man and beast. A big bottle for 25 cents.

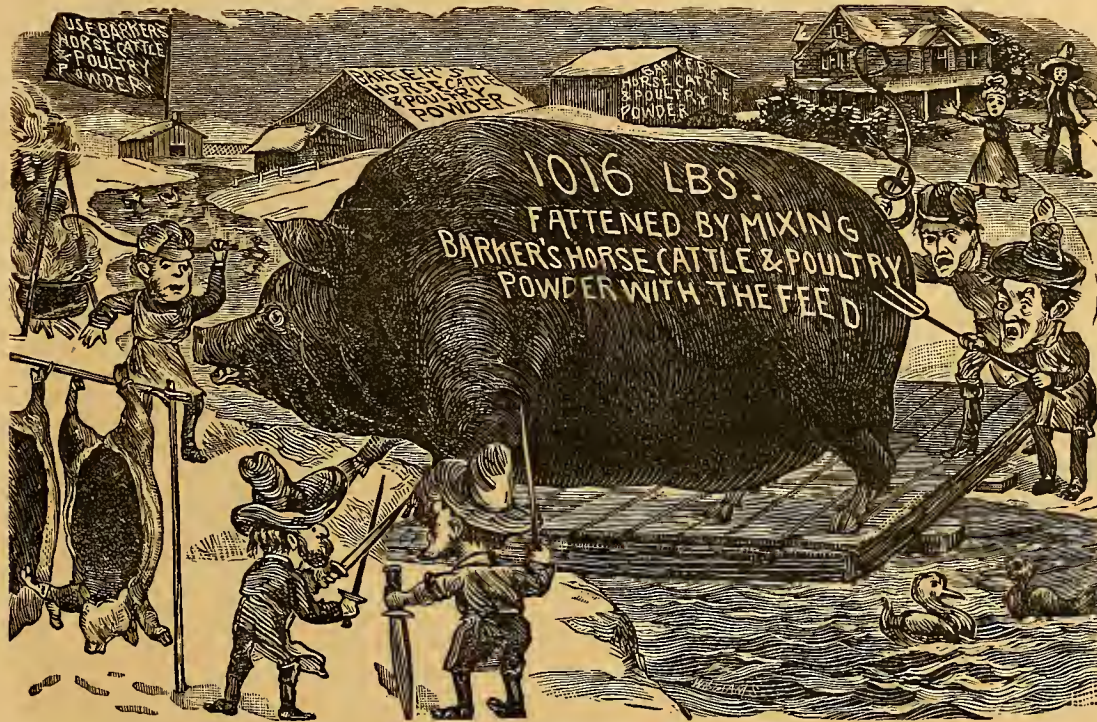

What the Man in the Moon Saw When Out Full at a Late Hour of the Night.

A horrible midnight scene that was only seen by the man in the moon, who reflected on it in a light manner. The clock struck 12 when farmer Parks, was startled from his slumber by something that sounded like cries of distress. He hurried with his gun to the spot, but had not run far when he tripped and fell into a dry well 160 feet deep, and was drowned in tears at the thought of not being able to shoot two darkey thieves. But as the well filled with tears he came to the top and discovered one dead nigger, one with a broken leg, and his dog dead, with his pigs all safe, and yet he was not happy till he tried Barker's Powder on a pig. See pig on page 127.

Those who go to law for damages are pretty sure to get them. If you should meet with bodily damage from mule kicks or otherwise, use Barker's Nerve and Bone Liniment, the great liniment for man and beast. A big bottle for 25 cents.

CLOVES are responsible for the first breath of suspicion in many happy families. Many families are made happy by the use of Barker's Nerve and Bone Liniment,

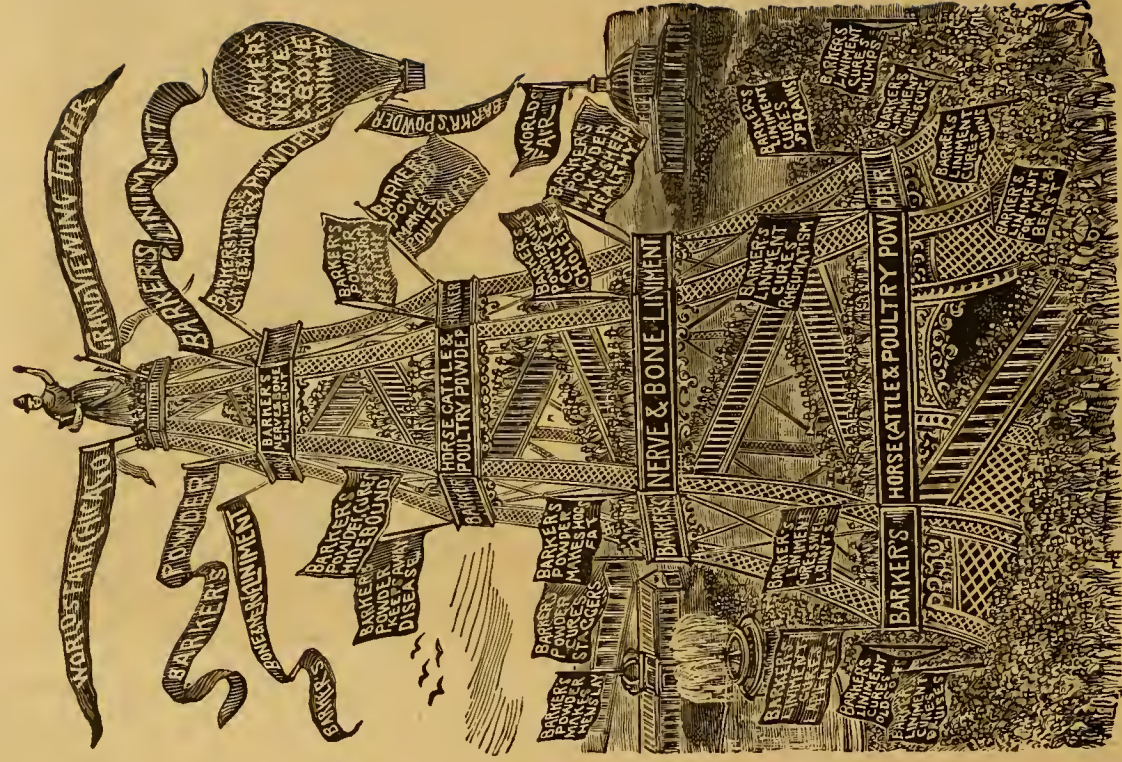

Farmer Parks' Big Fat Hog (1016 lbs.), Made Fat By Barker's Horse Cattle and Poultry Powder.

Mr. O. J. Lucas, a merchant of 23 years' standing, at Modest Town, Va., in a correspondence, says: "Mr. Barnett Parks, a farmer of this place, had a hog that would not thrive. I persuaded him to try Barker's Horse, Cattle and Poultry Powder mixed with the feed, three times a day. For the first few weeks there was no material change. After that the hog began to show marked improvement, until he reached in weight, 1,016 pounds, and when killed and dressed, weighed 930 pounds. Mr. Parks says the hog could not have possibly weighed more than 400 to 450 pounds had he not used Barker's Horse, Cattle and Poultry Powder. As a result of the above, I expect to have a big sale of Barker's Horse, Cattle and Poultry Powder this season."

THE butcher slays the pensive hog, cuts off his ears and feet, and grinds them in sausage big; thus making both ends meet. Barker's Horse, Cattle and Poultry Powder will keep your hogs healthy, which produces good meat. See page 17 for fac-simile of the genuine; also Barker's Nerve and Bone Liniment.

PASTOR—"Thomas, don't you think your parents would feel very sore if they knew you were fishing on Sunday?" Thomas—"Yes, sir; but not half as sore as I'd feel if they found it out." The pastor recommended Thomas to keep a bottle of Barker's Nerve and Bone Liniment on hand in case his parents should find out he was fishing. The great healer of bruises, &c., for man and beast, a big bottle for 25 cents.

EPHRAIM REYNOLDS' NARROW ESCAPE FROM THE BLOODY RED SKINS.—Continued on page 130.

Ephraim Reynolds was splitting a hollow log to capture two bears that had run in, when five murderous, yelling Indians rushed in on him, he told them in Indian talk about the bears, and if they would get their fingers in the split and pull the log open the bears would come out, they soon seen a chance to get the bears and the man also; so they took hold with their fingers and Eph. pulled out the wedge, and the split closed tight on their fingers. Eph. then took their weapons; then with his family escaped with their horses to the Agency. A squad of soldiery was at once sent and they were brought in and punished. Continued on page 130.

HUNTER—"Can you tell me which is the funniest part of a dog?" Farmer—"His tail, I guess, it's such a wag." "No, the funniest part of a dog is his lungs." "How do you make that out?" "They are the seat of his pants, don't you see." If you could see and read the volume of letters about the wonderful effects of Barker's Horse, Cattle and Poultry Powder, you would never be without it.

It has been said that the Course of True Love Never Did Run Smooth, but the mother of the dear girl who was being courted by moonlight alone ran so smooth and quiet, with her big dog Towser, that she got close enough to give Charles Henry George Augustus several violent whacks with a clothes stick before the dear hoy had time to leap for his life. The young man however has nearly recovered from his bruises and cuts by the use of Barker's Nerve and Bone Liniment the great reliever of cuts, bruises, sprains, &c., for man and beast, a big bottle for 25 cents.

SPECIAL—It has since been learned that the dear girl met Charles Henry George Augustus, and they went to a squire and got married; Charles Henry George Augustus fearing his wife might inherit some of the striking qualities of her mamma, has laid in a supply of Barker's Nerve and Bone Liniment the great healer of bruises, cuts and scalds.

A NEWLY-MARRIED couple were thrown from a carriage; a shocking sight for those wedded, to fall out so soon. In all cases where an injury is caused by a fall, use Barker's Nerve and Bone Liniment, the great liniment for man and beast. A big bottle for 25 cents.

A GOOD OLD-FASHIONED VIRGINIA BREAK DOWN.

Old uncle Tom, with his wife, children and grand-children celebrating his 95th birth-day with a good old Virginia break down, and sing their favorite melody, "Old Virginia Never Tire, Eat Corn Cakes and Lay by the Fire.

Beware of Counterfeits, a Spurious Powder represented to contain same ingredients and as good as Barker's is out. Get the genuine. See fac-simile of the genuine on page 17.

Mrs. NEWLYWED—"Oh, Charlie, dear, I've got such a nice piece of news to tell you." Mr. Newlywed—"Indeed! What is it love?" Mrs. Newlywed—"Why, William tells me that our place is just over run with milk weed. Won't that be splendid for the new cow?" We positively assert that Barker's Horse, Cattle and Poultry Powder when mixed with a cow's feed will largely increase the flow of rich milk.

The Wonderful Advertising Elephant, Jingo, Weighing Twenty-Eight Thousand Tons.

Performing the most wonderful and daring feat ever exhibited, rolling a gum ball across a tight rope, two thousand feet above the ground, with his master on a gum ball on his head.

A Galveston man, who has a mule for sale, hearing that a friend in Houston wanted to buy a mule, telegraphed him: "Dear friend—If you are looking for a No. 1 mule, don't forget me." Whether a mule, horse, ox, cow, sheep, hog or poultry, don't forget to give them Barker's Horse, Cattle and Poultry Powder, it will pay you ten-fold.

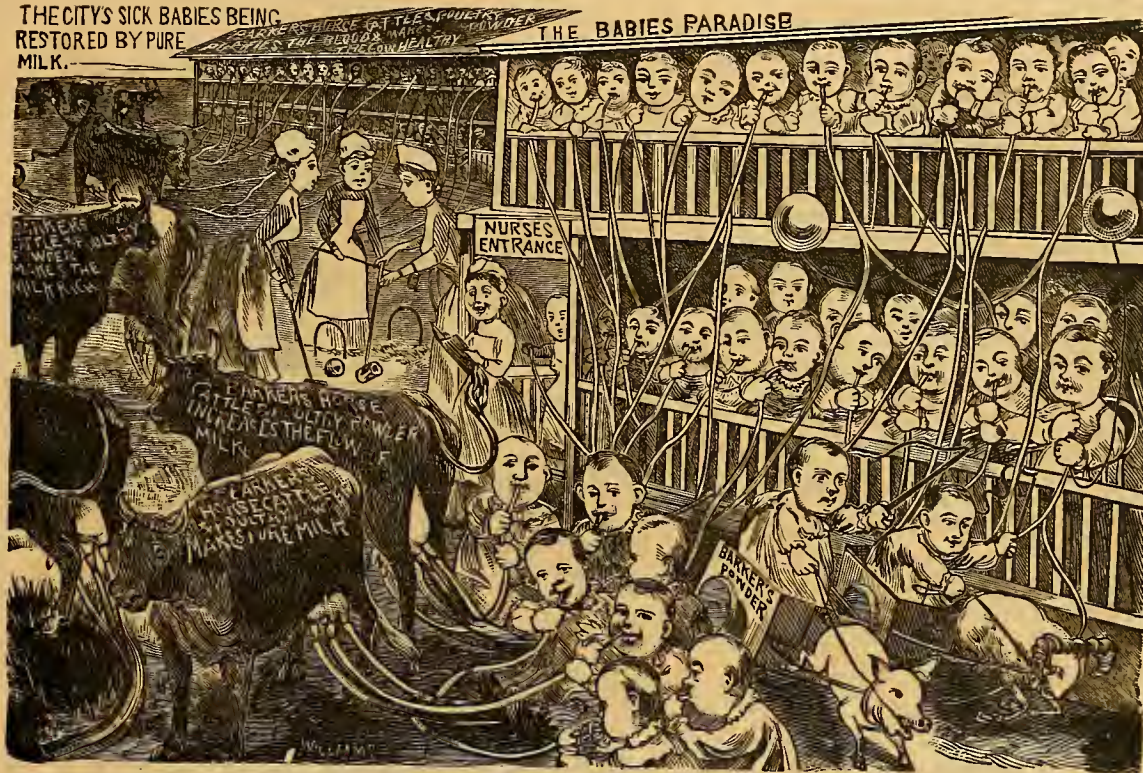

MIKE McFAD, THE GERMAN BLACKSMITH AND DENTIST, OF GUZZLERSBURG.

At Guzzlersburg, on the Indian trail, Ya Hoop, 76 miles up Rattlesnake swamp and 130 miles south of Scorpion's Paradise, on the road to Oklahoma, is the blacksmith shop and tooth pulling establishment of Mike McFad, an enterprising German settler, late of Limburger, Ireland, who guarantees satisfaction, as will be seen by the sign in his office.

SICK HUSBAND—"Did the doctor say that I am to take all that medicine?" Wife—"Yes, dear." Sick Husband—"Why, there is enough in that bottle to kill a mule." Wife (anxiously)—"You had better be careful, John." There is no better medicine in existence for a sick mule, horse, cow or poultry, than Barker's Horse, Cattle and Poultry Powder.

THE CITY'S SICK BABIES BEING
RESTORED BY PURE
MILK.

CONTAMINATED MILK.

Impure water affects domestic animals as well as man, and when used by cows contaminate the milk. Milk also has great power to absorb deleterious gases and germs from the air, and thus becomes a common carrier of diseases. A careful man will pay as much attention to the source and quality of the milk used by his family as to the water supply. Impure water poisons the blood, the milk then becomes poisoned. In order to keep the cow healthy, the blood should be kept purified, which can be done by mixing Barker's Horse, Cattle and Poultry Powder with the feed, the great blood purifier.

A GENTLEMAN asks how to make hogs pay. This is a hard question to answer. The best way to avoid the difficulty is not to sell a hog anything unless he pays for it in advance. The way to make a four-legged hog pay is to give him plenty of Barker's Horse, Cattle and Poultry Powder; it will make him fat and healthy and keep off disease.

THE FAMILY COON HUNT BY MOONLIGHT.

Old Uncle Mose Thompson was known to be a complete success when it came to clearing off a hen roost, or selecting geese after dark; but was not a successful coon hunter. He chased one into a hollow tree one night, then got his family, including two dogs to watch the hole where the coon entered. Mose climbed the tree and sawed the limb off, when the limb was off, so was the coon. Mose came down with a crash, spraining an ankle, beside getting

severely bruised; but will soon be able to pursue his nightly business, robbing hen roosts, as he is using Barker's Nerve and Bone Liniment, the quick reliever of sprains, bruises, &c., for man and beast, a big bottle for 25 cents.

Why is a reddish horse like horse-radish? Because we can't test the speed of one or the virtue of the other without putting a bit in the mouth. The virtues of Barker's Horse, Cattle and Poultry Powder have been thoroughly tested,

SURVIVORS OF THE WRECK IN DANGER

SURVIVORS OF THE WRECKED PIRATE BOAT WILLIAMS IN DANGER.

The pirate boat Williams, named after her notorious captain, was caught in a heavy storm when cruising along the Jersey coast for plunder, the crew were all lost except the captain, who escaped on a log raft, and is now cutting wood for a living in Spain. The boat was carried several thousand miles out in the ocean, when after braving the rough sea for three months she struck a rock on Whale Island and went to pieces; it was shown that Captain Williams and his pirate crew must have been well provided with stolen poultry, as quite a number of living skeletons escaped to the Island, only to be swallowed up by huge sea monsters.

A VERY thin dude walking along the street between two finely built young ladies, drew the following unpleasantly audible comment from a grinning street gamin: "Ain't much ham in that sandwich." In order to produce first-class hams, give your hogs Barker's Horse, Cattle and Poultry Powder.

THE LAUGH AND GROW FAT CLUB ON THEIR ANNUAL PICNIC.

Jacob Doolittle, the jolly president of the Laugh and Grow Fat Club, addresses them and relates some very funny incidents that occurred in a 20 years' experience, as a traveling salesman for Barker's Horse, Cattle and Poultry Powder and Barker's Nerve and Bone Liniment.

GENTLEMAN (to gardner)—"Well, Dennis, this is too bad, after promising that you would try and keep sober." Dennis—"Sure, sir, I tried with all my might, but the fourth glass upset me." If you should ever get upset when out driving and cause a sprain or bruise, use Barker's Nerve and Bone Liniment, and a sure and speedy cure will follow. A

EXTRA High-School Graduates in Lightning-Rod Ology, who have on an average reached 350 bushels each of fruit from the farmers' trees in the college neighborhood during their three-year course; they now go out into the world to pursue their calling, their high standing being a sufficient guarantee to elevate them in the eyes of the people, they are all poor young men; yet they look down on almost every person they meet. They will make no haste to become rich; this may be accounted for because they are so long for this world.

MISTRESS—"Then you are going." Cook—"I am. I've been in the habit of living with ladies (marked emphasis on the last word)." M. (sarcastically)—"Well, if you are going leave us a lock of your hair." C.—"I have ma'am. You'll find it in the butter. For a large increase of butter, mix Barker's Horse, Cattle and Poultry Powder with the feed, it makes the milk very rich; thus the large increase of butter. It has been thoroughly tested. Try it.

The Great Base Ball Came Between the Phillies and Athletics.

The close contested base ball game between the Phillis and Athletics for a solid gold cup, was won by the ball rolling under the fence, and the catcher being unable to get the ball owing to an ugly dog, the boys all got in, and the Phillis won the gold cup. The Athletics say they didn't want the cup as it was brass.

"PAT, how long will it take you to go to the Post Office?" "Well, sur, it'll be twenty minutes walk if I run." If when you run you should fall and get hurt, remember Barker's Nerve and Bone Liniment, the great healer of bruises and sprains. A big bottle for 25 cents.

CARVING A FINE ART: Husband—"Mary, has the dog been at this meat?" Wife—"No, dear, I carved when you were away yesterday." If you want choice meat, give your cattle, hogs, sheep and poultry Barker's Horse, Cattle and Poultry Powder mixed with the feed; it has been thoroughly tested.

SULLIVAN AND SLAVIN MEET ON CANADA SHORE TO FIGHT IT OUT.

Price 25 cents a box, ask your storekeeper for them, if he has not got them and won't get them for you, send us \$1.00 and we will send you five boxes by mail. No family should be without them.

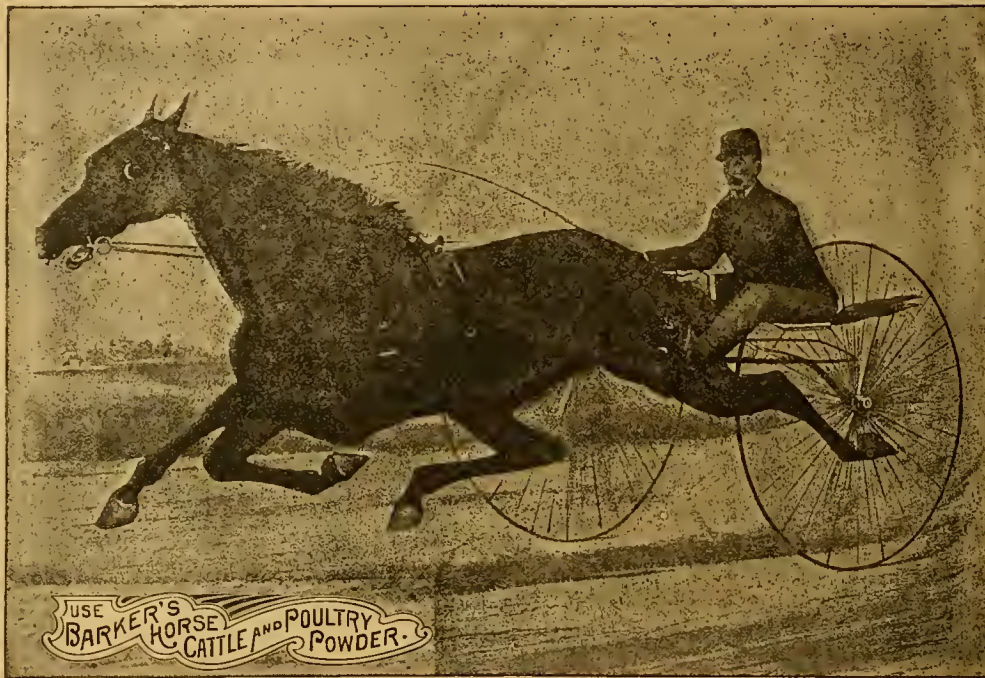

Why is burying a man alive like a sad mistake? Because it is a grave error. It is also a mistake to expect to feel well unless the pulse is healthy, and beats 70 times a minute; if more or less, the machine is out of order, you may be constipated, with headache, &c., if so, take Barker's Liver Pills, no family should be without them.

A Box containing two of Barker's Anti-Bilious or Liver Pills was accidentally upset out of a window and quickly gobbled up by a plump, fat hen, the same hen was required for supper the next day, and was biled for over six hours without any effect. The village doctor when riding by was called in and they told him about the chicken swallowing two of Barker's Anti-Bilious or Liver Pills, and asked him why it was that after biling the chicken for over six hours, it had no effect; he said that after taking the pills there was no bile in it.
